Grade R Mathematics  
Improvement Programme

# UmHlahlandlela wemiSebenzi: Ithemu 2

## Activity Guide: Term 2

The Grade R Mathematics and Language Improvement Project is an initiative of the **Gauteng Department of Education** and its key partner, the **Gauteng Education Development Trust**.

The development and production of the training and classroom resources for the Grade R Mathematics and Language Improvement Project were made possible by generous project funding from the **United States Agency for International Development** and the **Zenex Foundation**.

The Grade R Mathematics and Language Improvement Project is managed by **JET Education Services** with **UCT's Schools Development Unit** and **Wordworks** as technical partners.

The **Schools Development Unit** (SDU) at the **University of Cape Town** (UCT) is the mathematics technical partner to the Grade R Mathematics and Language Improvement Project. The SDU is a unit within UCT's School of Education that focuses on teachers' professional development in Mathematics, Science, Literacy/Language and Life Skills from Grade R to Grade 12. The SDU offers teacher qualifications and approved UCT short courses, school-based work, materials development and research to support teaching and learning in all South African contexts.

This edition of the mathematics materials has benefitted from collegial engagement with Wordworks colleagues and has been improved by their alignment with the materials of the Language Improvement Programme. It has been enriched by the work of officials of the Gauteng Department of Education's Early Childhood Development and Foundation Phase Curriculum Sub-Directorates at District and Provincial level who have made valuable contributions to the content of the materials and engaged constructively to ensure alignment with provincial policies, practices and values.

# Introduction

The Grade R Mathematics Improvement Programme (Grade R Maths) is based on a good knowledge of mathematics, an understanding of the progression in the Grade R curriculum, and a realisation that some teaching approaches are better suited to promote particular learning and outcomes.

The Grade R Maths *Activity Guide: Term 2* offers a structure for teaching maths in the second term of Grade R by:

- sequencing the content of each Mathematics Content Area across ten weeks
- providing progression and pacing within the five Content Areas
- focusing on one main Content Area per week (However, topics from other Content Areas may be introduced and practised during that week. Number-related learning and teaching takes place every day and is integrated into all the Content Areas.)
- suggesting activities for whole class, teacher-guided and independent group work.

## Features of Activity Guide: Term 2

The following features form part of *Activity Guide: Term 2*:

- A content overview shows the new knowledge and practice focus per week.
- Term, week and Content Area Focus are clearly stated at the beginning of each week.
- Topics, New knowledge and Practise boxes show what will be covered in the week.
- New maths vocabulary to be taught is listed per week.

- A list is given of what you need to prepare for each week.
- Tip boxes give ideas and reminders.
- Integration boxes suggest how the maths can be reinforced in other subjects and daily activities during the Grade R daily programme.
- ‘Check that learners are able to’ boxes guide observation and continuous assessment.
- A continuous assessment page is based on the term’s activities.
- Resources and templates are included at the back of the guide.

## Grade R Maths in the daily programme

Routine is important and learners enjoy the repetition and feel secure when they know what to do and what is expected of them.

Planning is also important to ensure that the routine runs smoothly. Read the contents for the week and prepare all the materials you will need for each day in advance. Set out the materials for the day beforehand so that everything is ready in the morning.

Grade R Maths suggests a sequence of activities that are repeated daily over a five-day week. Classroom organisation and activities that can be used to teach and reinforce maths concepts are suggested per week. These include:

# Isingeniso

IHlelo lokuThuthukisa iimBalo zeGreyidi R (*i-Grade R Maths*) lisekelwe phezu kwelwazi elihle leembalo, ukuzwisa iragelo phambili lekharikhyulamu yeGreyidi R, nokulemuka bonyana ezinye iindlela zokufundisa zikhambisana ngcono nokuhutjhulwa kokufunda nemiphumela ethileko.

*UmHlahlandlela wemiSebenzi ye-Grade R Maths: Ithemu 2* inikela isakhiwo sokufundisa iimBalo kuthemu yesibili ye-Greyidi R ngoku:

- landelanisa okumumethweko kwesiGaba sokuMumethweko seemBalo ngasinye eemvekeni ezilitjhumi
- nikela iragelophambili nebelo lokusebenza phakathi kweenGaba zokuMumethweko ezhlanu
- nqophana nesiGaba sokuMumethweko esisodwa esiqakathetkileko ngeveke (Nanyana kunjalo, iinhloko ezivela kezinye iinGaba zokuMumethweko zingathulwa bezenziwe phakathi kweveke leyo. Ukufunda nokufundisa okukhambelana neenomboro kwenzeka ngamalanga begodu kuhlanganiswe nazo zoke iinGaba zokuMumethweko.)
- veza imibono ngemisebenzi yetlasi yoke, ehlahlwa ngutitjhhere nomsebenzi wesiqhema ozijameleko.

## Amatshwayo womHlahlandlela wemiSebenzi: Ithemu 2

Amatshwayo alandelako akha ingcenyi yomHlahlandlela wemiSebenzi: Ithemu 2:

- Ihlathululo yokumumethweko ikhombisa ilwazi elitjha lomnqopho wokujayenza ngeveke.
- Ithemu, iveke nomNqopho wesiGaba sokuMumethweko kuthulwe ngokucacileko ekuthomeni kweveke ngayinye.
- Amabhoksi atlolle linhloko, Ilwazi elitjha noUkujayenza akhombisa lokho okuzakwenziwa evekeni.
- Ilwazimagama elitjha leembalo elizakufundisa lirheliswe ngeveke.
- Irhelo lalokho ofanele ukulungise iveke ngayinye linikelwe.
- Amabhoksi weenyeleliso anikela imibono neenkhumbuvi.
- Amabhoksi wokuhlanganisa anikela umbono wokobana iimbalo zingagandeletwa bunjani kezinye iimfundo nemisebenzini yangamalanga ngesikhathi sehlelo leGreyidi R langamalanga.
- Amabhoksi ahlahla ukubona nokuhlolola okuragela phambili.
- Ikhasi lokuhlolola okuragela phambili linzinze emisebenzini yethemu.
- Linsetjenziswa nemifuziselo kufakwe ngemva komhlahlandlela.

## I-Grade R Maths ehlelwani langamalanga

Ikambiso iqakathetkile begodu abantwana bayakuthabela ukubuyeleta begodu bazizwa baphephile lokha nabazi bonyana kufanele benzeni nokobana khuyini okulindelwe kibo.

Ukuplana nakho kuqakathetkile ukuqinisekisa bonyana ikambiso ikhamba butjhelela. Funda okumumethweko kweveke bese ulungisa yoke imatheriyali ozayidinga yelanga ngalinye isikhathi siserekhona. Khupha imatheriyali yelanga ngaphambi kwesikhathi kube yoke into sele ilungile ekuseni.

I-Grade R Maths inesiphakamiso semisebenzi elandelanako ebuyeletwa ngamalanga evekeni yamalanga amahlanu. Ukuhleleka kwetlasi nemisebenzi engasetjenziselwa ukufundisa nokugandelela imiqondo yeembalo iyaphakanyiswa ngeveke. Lokhu kufaka hlangana:

## Whole class activities per day

- Rhyme or song
- Oral counting
- Counting concrete objects
- Activities and questions linked to Content Area topics

At the end of the whole class activity, show the learners what they will be required to do at their workstations. All the materials they need should be set out so that they can begin working on the activities.

## Transitions: moving between activities

Moving between the mat and the workstations is a great time to practise rhythmic counting and fun, creative ways to move, for example, slowly like tortoises, hopping like rabbits, quietly like mice, one by one with their name/picture symbol cards.

## Small group activities

- There is one teacher-guided activity per day.
- There are four small group activities per day. These four independent activities (or side activities) should be set out at four **workstations** around the classroom – either at tables where the learners are seated or stand, or on the mat, or outside. The groups rotate to each **workstation** over the course of a week, depending on how the teacher has planned the activities. Remind learners to take turns, share materials and help each other while working.

## Tidy-up time

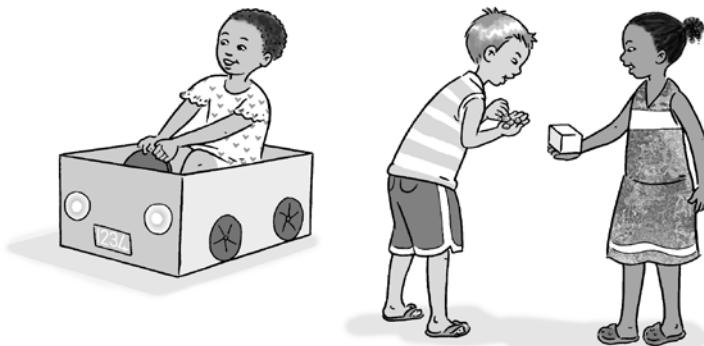

Learners need to know where materials belong. A shelf or table that is dedicated to maths equipment will help learners to be organised. Encourage learners to help each other during tidy-up time. Initially learners will need assistance and you will have to remind them where to put things, but they will soon get into the routine of putting things where they belong.

Choose group leaders and tidy-helpers each week. Give them specific tasks and responsibilities.

## Free choice activities

Set out creative, interesting activities that learners can choose from once they have completed their workstation activity. These could include:

- blocks or other construction toys
- puzzles
- playdough
- books in the reading corner
- fantasy play, for example, shopping
- workbook or worksheet pages.

## Imisebenzi yetlasi yoke yelanga

- Umlolozelonofanaingoma
- Ukubala ngomlomo
- Ukubalaizintoeziphathhekako
- ImisebenzinemibuzoehlanganisweenenhlokozesiGaba sokuMumethweko

Ekupheleni komsebenzi wetlasi yoke, khombisa abafundi lokho ekufanele bakwenze eentetjhini zabo zokusebenzela. Yoke imatheriyali abayidingako ibekwe kuhle kobana bathome benze imisebenzi.

## Ukutjintjana: ukusuka komunye umsebenzi udlulele komunye

Ukutjhida phakathi komada nesitetjhisi sokusebenzela sikhathi esihle sokuzijayeza ukubala ngegido nangethabo, indlela zokutjhida ngobukghwari, isibonelo, kancani njengekghuru, weqe njengomqasa, buthule njengekhondlo, ngamunye ngamunye namakarada wegama/wetshwayo lesithombe sakhe.

## Imisebenzi yesiqhema esincani

- Kunomsebenzi munye ohlahlwangutitjhere ngelanga.
- Kunemisebenzi emine yeenqhema ezincani ngelanga. Imisebenzi emine ezijameleko le (nofana imisebenzi yangeqadi) kufanele ihlelwe **eentetjhini zokusebenzela** ezine ngelasini mazombe – kungaba seentafuleni laphaabafundi bahlezinofanabajamekhona, emadeni,nofanangaphandle. Abafundi badlhegana ngesitjhisi sokusebenzela ngasinyeivekeyoke, ngokuya ngendlela utitjhere ahlele ngayo imisebenzi. Khumbuza abafundi kobana badlhegane, babelane imatheriyali bebasizanelokhanabasebenzako.

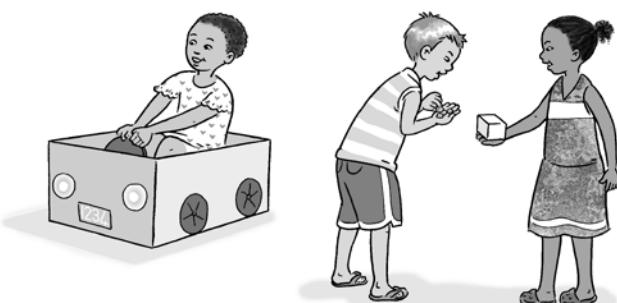

## Isikhathi sokubutha

Abafundi kufanele bazi bonyana imatheriyali ihlala kuphi. Itjhelfunofanaitafulaibekelweiinsetjenziswa ingasiza abafundi bahleleke. Khuthaza abafundi basizane ngesikhathi sokubutha. ## Imisebenzi yokuzikhethela ngokutjhaphulukileko

Hlela imisebenzyobuhlakani, nekarisako bonyana abafundi bazokwazi ukukhethakiyolokhanaselebaqedaukwenza imisebenzi yabo yesitetjhini sokusebenzela. Lokhukungafaka hlangana:

- amabhlogonofaneaezinyeiindlalizizokwakha
- amaphazili
- ihlama yokudlalisa
- iincwadiekhoneni lokufundela
- umdlalo weenthombengqondo, isibonelo,ukuthenga
- incwadiyokusebenzelanofanamakhasi wetjhidi lokusebenzela.

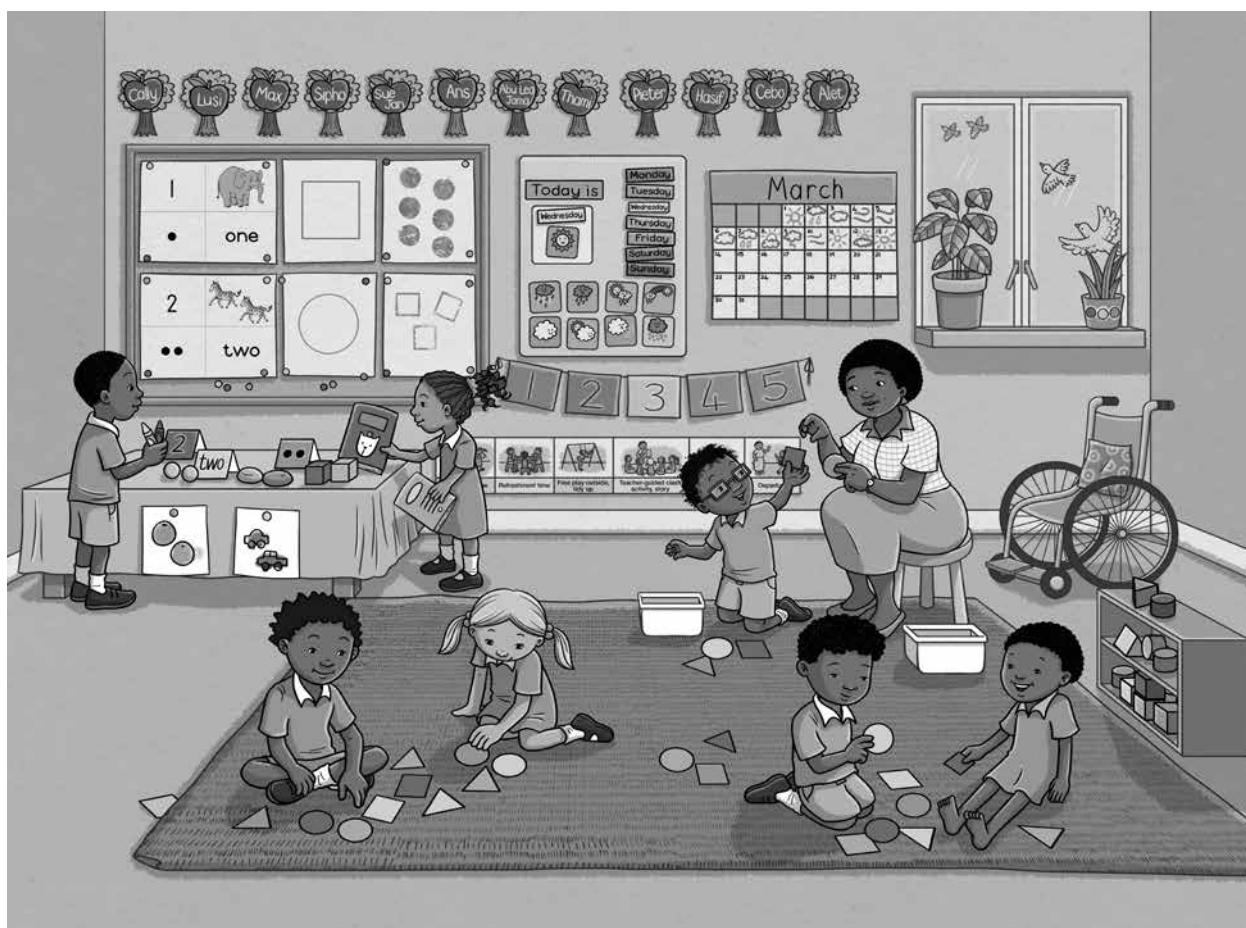

## Assessment

Observation and continuous assessment during teacher-guided and whole class activities provides opportunities for insights into and a good overview of each learner's progress. This information is important for guiding further teaching and interventions for individual learners. The continuous assessment checklist on pages 190 and 192 of this guide is based on the content that has been taught in Term 2. This template can be used to record each learner's progress during the term.

## Grade R Maths in the classroom

Set up an area in the classroom that is dedicated to maths and is near the mat. This is a shared space where learners can contribute to and engage with the topic they are learning about. An ideal maths area will include:

- small table against a wall
- number line made with string and pegs
- daily weather chart
- calendar for each month with blocks for each day
- chart with the names of the days of the week
- daily programme with pictures for the different activities
- learners' name cards and symbols arranged according to their group names
- helpers' symbols to move between learners' names according to each day of the week
- helpers' chart.

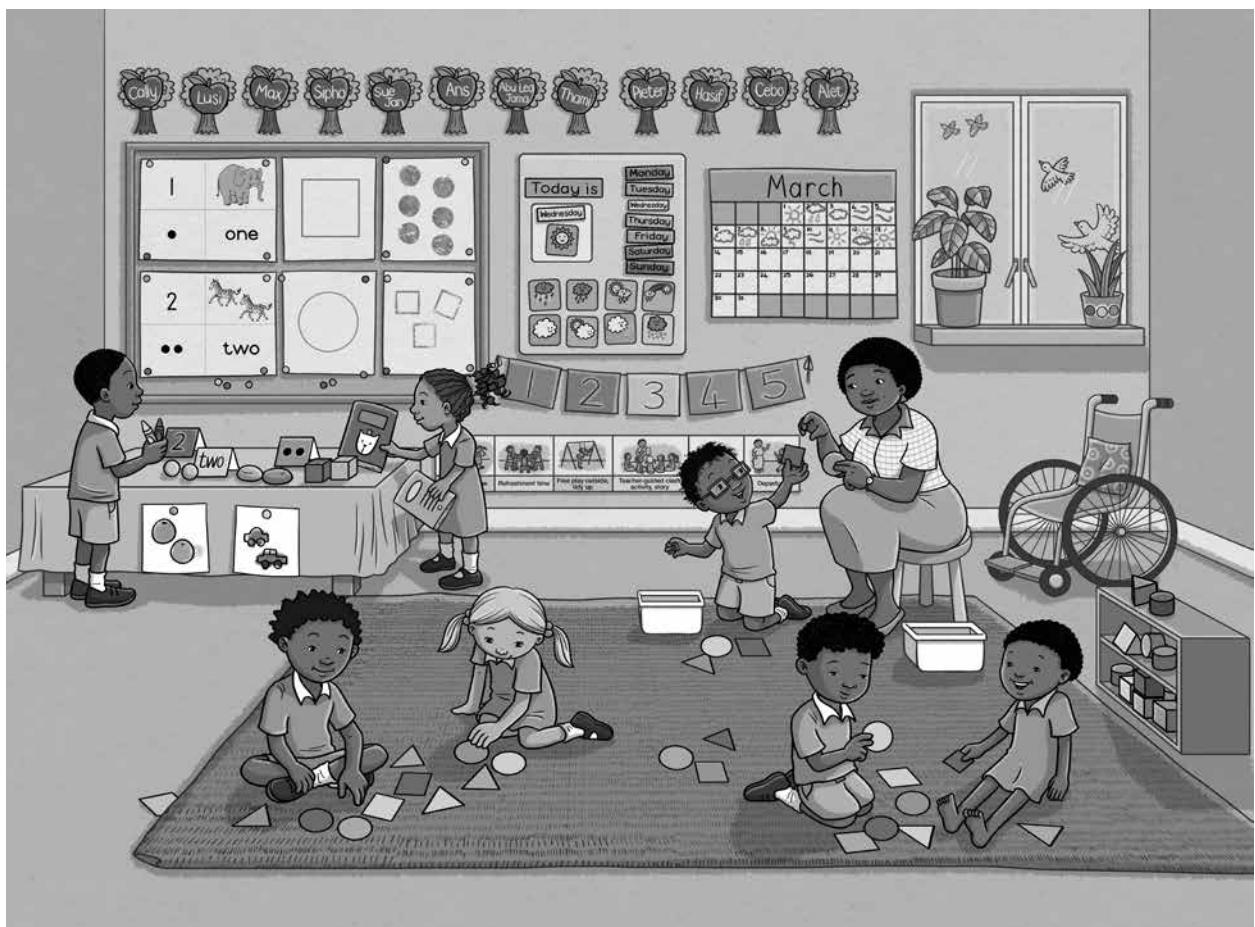

## Ukuhlola

Okutjhejiweko nokuhlola okuragela phambili ngesikhathi semisebenzi ehlahlwa ngutitjhere neyetlasi yoke kunikela amathuba welwazi nehlathululo ehle yeragelophambili yomfundu ngamunye. Ilwazi leli liqakathekile ukuhlahla ukufundisa okuragela phambili nokungenelela emntwaneni ngamunye. Irhelo lokuhlola ukuhlola okuragela phambili elisekhasini 191 nele-193 womhlahlandlela lo linzinze kilokho okufundiswe kuThemu 2. Umfuziselo lo ungasetjenziselwa ukurekhoda iragelophambili lomfundu ngamunye ngesikhathi sethemu.

### I-Grade R Maths ngetlasini

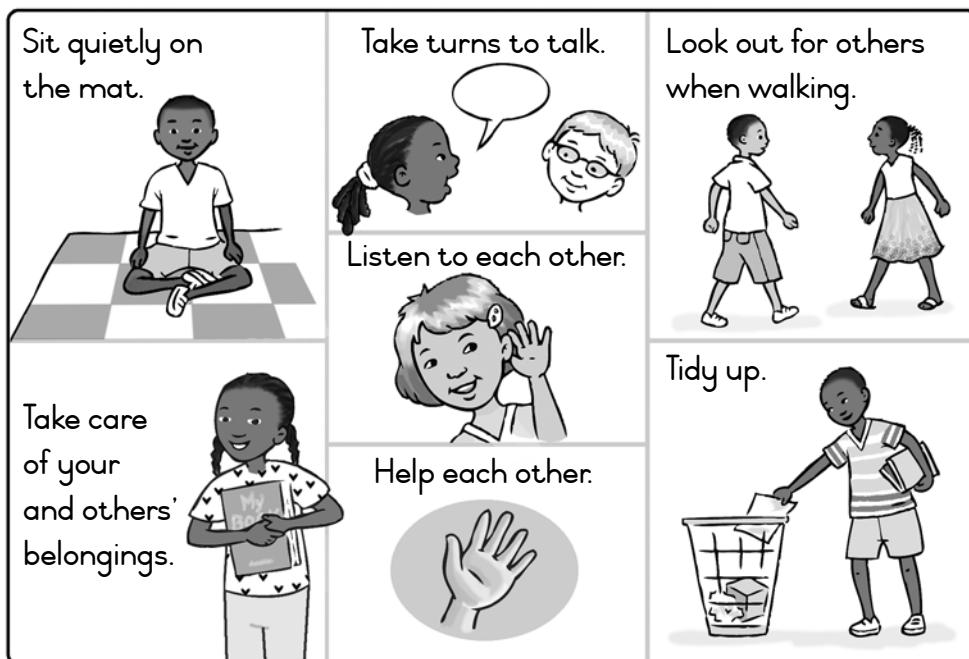

Lungisa indawo ngetlasini oyibekele iimbalo begodu eseduze nomada. Le yindawo ekwabelwana ngayo lapha abafundi banganikela bebazibandakanye nesihloko ebafunga ngaso. Indawo yeembalo efanelekileko ifaka hlangana:

- itafula encani esame ngeboda
- inambalayini eyenziwe ngentambo namaphegsi
- itjhadi lobujamo bezulu bangamalanga
- ikhalenda yenya ngeyinye enamabhlogo welanga ngalinye
- itjhadi elinamagama wamalanga weveke
- ihlelo langamalanga elineenthombe zemisebenzi ehlukileko
- amakarada namatshwayo wamagama wabafundi ahlelwe ngokuya kwamagama weenqhema zabo
- amatshwayo wabasizi azokukhamba phakathi kwabafundi ngokuya ngokwamalanga weveke
- itjhadi labasizi.

Make a ‘classroom rules’ poster with the learners. Display it where they can easily see it. There should be no more than six or seven rules.

## Resources for Grade R Maths

### Grade R Maths Resource Kit

Grade R Maths provides a kit for learning and teaching maths that provides apparatus for a small group of six to eight learners to use. The kit includes the following items:

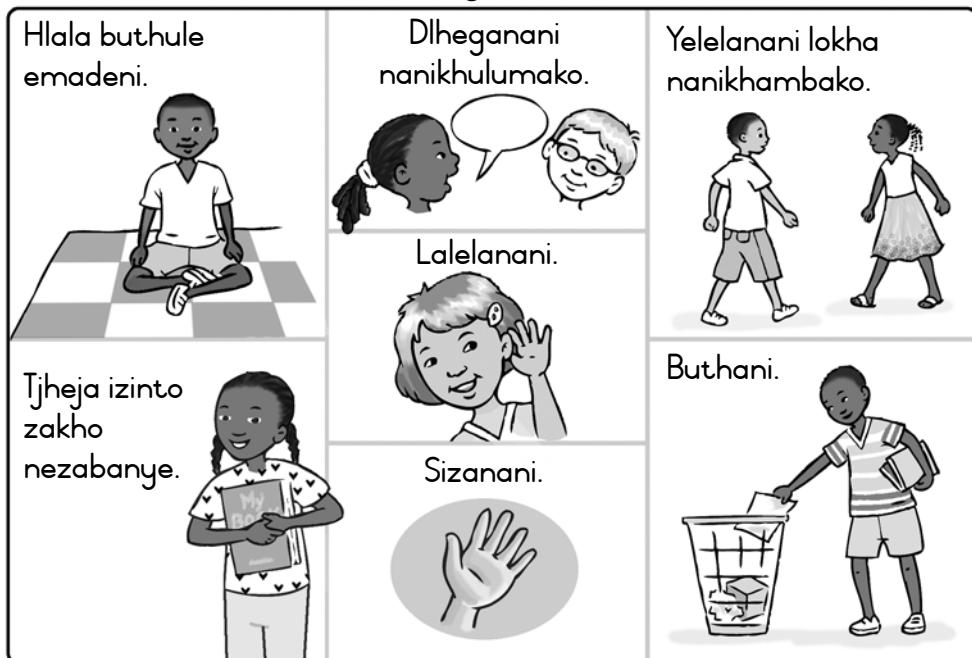

- counting materials, for example, coloured discs and sticks, fruit and animal counters, Unifix blocks
- jumbo dice
- strings of ten structure beads
- dot cards
- number cards: number symbols (0–10) and number words (zero–ten)
- attribute blocks.

These should not be the only resources that teachers and learners use during maths activities. Everyday objects from home are ideal for sorting, counting and exploring shapes.

Yenza iphosta etlolwe ‘imithetho yetlasi’ nabantwana. Ikhangise lapha bazayibona khona ngobulula. Imithetho ayingadluli kwemithandathunofana elikhomba.

## Imithetho yetlasi lethu

## Iinsetjenziswa ze-Grade R Maths

### IKhidi yeenSetjenziswa ze-Grade R Maths

I-Grade R Maths inikela ikhidi yokufunda nokufundisa iimbalo enikela ngeensetjenziswa zeenhema ezincani zabafundi abasithandathu ukuya kababunane kobana bazisebenzise. Ikhidi ifaka lokhu okulandelako:

- imatheriyali yokubala, isib. amadiski neengo jwana zembala, iimbalisi zeenthelo neenlwana, namabhlogo we-Unifix
- idayisi elikhulu
- imitja yemincamo ehlelekileko elitjhumi
- amakarada wamaqatjhazi
- amakarada weenomboro: amatshwayo weenomboro (0–10) iinomboromagama (ziro ukuya etjhumi)
- amabhlogo wamatshwayo.

Lokhu akungabi ngizo zodwa iinsetjenziswa utitjhere nabantwana abangazisebenzisa ngesikhathi semisebenzi yeembalo. Izinto zangamalanga ezibuya emakhaya zifanelekile ekuhleleni ngamananeko, ukubala nekuhloleni amabumbeko.

## Recycled materials

Store recycled materials in labelled containers with lids (such as: fruit and vegetable packaging, 2-litre ice-cream containers and 500-ml feta tubs). Place the containers on a shelf or somewhere that the learners can reach. Encourage learners to put the objects away during tidy-up time if they have used them at their workstations or during free choice activities. Here are some ideas for maths resources:

- bottle caps and lids (different shapes, sizes and colours)
- different-sized boxes (toothpaste, matchbox, cereal, medicine, packaging)
- plastic containers (500-ml and 1-litre bottles, margarine tubs, 250-ml and 500-ml yoghurt tubs, ice-cream containers, vegetable packaging)
- tubes and cylinders (cardboard toilet roll inners, paper towel inners, foil roll inners, tins)
- egg boxes
- buttons, old keys, plastic spoons, ice-cream sticks, bread packet tags
- variety of balls, beanbags, hula hoops.

## Other resources

Other useful classroom resources for Grade R Maths teaching include:

- crayons, paint, glue, scissors
- playdough or modelling clay
- books that can be used for maths discussions

## Imatheriyali eyenziwe kabutjha

Bulunga imatheriyali eyenziwe kabutjha ngeemphathini ezilebuliweko ezineemvalo (njengokuthi: izinto zokufaka iinthelo nemirorho, iimphathi ze-ayisikhrimu ezimalitha ama-2 neenkhafthinyana ze-feta ezi-500-ml). Beka iimphathi lezi etjhelfininofana kukuphi lapha abantwana bangazifikela khona. Khuthaza abafundi babuyisele izinto ngesikhathi sokubutha nangabe bazisebenzisile eentetjhini zabo zokusebenzela nofana ngesikhathi semisebenzi yokuzikhethela ngokutjhaphulukileko. Nasi eminye imibono mayelana neensemjenzisa zeembalo:

- iimvalo zamabhodlelo (amabumbeko, ubukhulu nemibala ehlukileko)
- amabhoksi wobukhulu obuhlukileko (isibha sukuhlamba amazinyo, amabhoksi weenthoro zomlilo, isiriyeli, umtjhoga, wokupaka)
- iimphathi zeplastiki (amabhodlelo wama-500 ml, nawelitha eli-1, iinkhafthini zemajarini, iinkhafthini zeyogathi ye-250 ml neye-500 ml, iimphathi ze-ayisikhrimu, neempakana zemirorho)
- amatjhuhu namasilinda (irolo lengaphakathi kwethitjhuh yendlwaneni, ingaphakathi lethawula yephepha yangekhwitjhini, amarolo wengaphakathi lefoyili, amabhlege)
- amabhoksi wamaqanda
- iiinkunubhe, iinlodlhelo ezidala, iingobho zeplastiki, iingojwana ze-ayisikhrimu, iinkanapelo zokubopha amaphakethe woburotho
- imihlobo ehlukileko yeembholo, imigodla yeembhontjisi, amahulahuphu.

## Ezinye iisetjenzisa

Ezinye iisetjenzisa zokufundisa i-Grade R Maths zifaka hlangana:

- amakhrayoni, ipende, isinamathiseli, iinkere
- ihlama yokudlalisa nofana umdaka wokubumba
- iincwadi ezingasetjenziselwa imikhulumiswano yeembalo
- amabhlogo wokwakha neendlalisi zokwakha (buthelela iinkuni ezisarhiweko nangabe kuyadingeka)
- imihlobohlobo yamaphazili angelenanako nemidlalo, isibonelo, amadomino, iinyoka neenlere, i-Ludo, i-Lotto

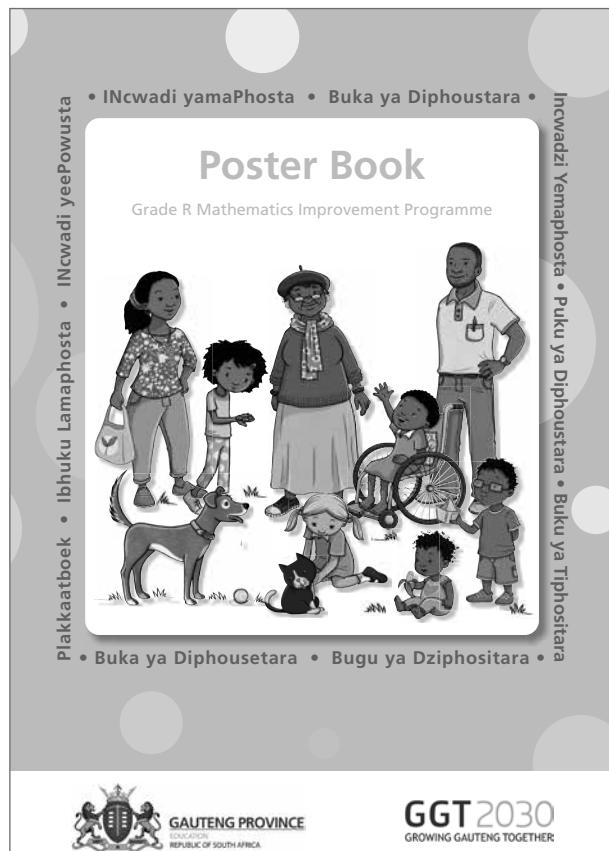

- height chart
- jumbo playing cards
- pretend money: coins and notes (to use in a play shop)
- large analogue wall clock
- balance scale
- beads for sorting, threading and patterning
- equipment for sand and water play
- apparatus for climbing, balancing, swinging and skipping.

## The Grade R Maths Poster Book

There are eleven posters in the Grade R Maths Poster Book. The posters present familiar contexts that learners can relate to that capture some aspect of maths, for example, in the classroom, on the playground, and in the kitchen. The posters are intended to stimulate interest and discussion on maths topics, including: number, patterns, space and shape, sequencing of time and measurement. The posters can be used to engage learners in critical thinking and reasoning. They are perfect for developing problem-solving skills and for maths investigations.

Teachers can encourage learners to discuss the posters and share their thinking by asking questions to guide them in focusing on a particular aspect of the poster, for example:

- What do you see in the picture?
- Where do you think the children/people are?
- What is happening in the picture?
- Can you tell me a story about the picture?
- How many ... can you see? What if there was one more/fewer ...?
- Where is the ...?
- What would happen if ...?
- What do you think will happen next?
- What do you think ... can see from where they are standing?
- What pattern can you see? Describe the pattern.
- What shapes can you see?
- Which ... is the tallest/shortest?
- Can you use any maths words to describe something in the picture?

- itjhadi lokuphakama
- amakarada wokudlala amakhulu
- isingamali: iinhlavu namaphepha (yokusetjenziswa esitolo sokudlalisa)
- iwatjhi ekulu yebodenye-analogo
- isikala sokudzimelela
- imincamo yokuhlela, ukuphothela nokwenza amaphetheni
- iisetjenziswa zemidlalo yehlabathi namanzi
- iisetjenziswa zokukhwelela, ukudzimelela, ukujinka, nokweqayeqa.

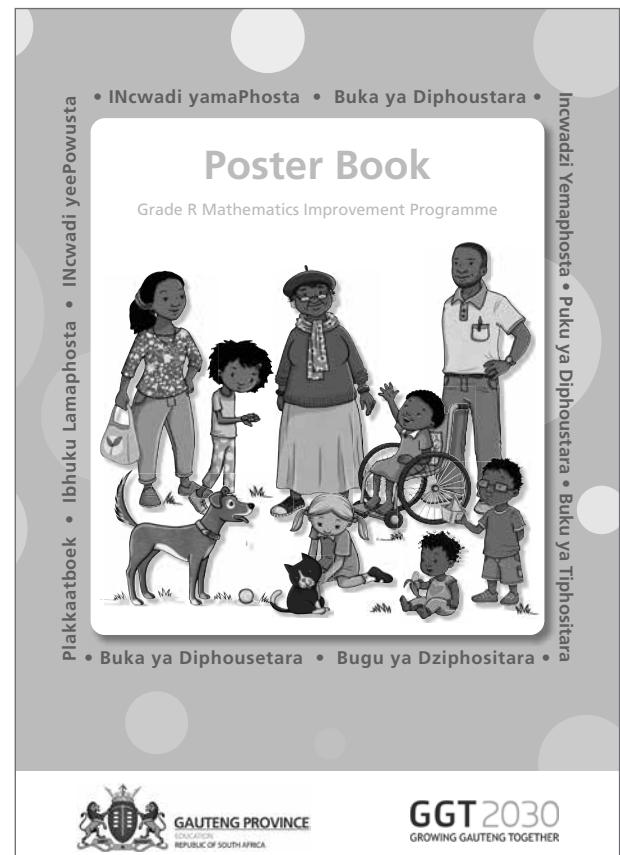

## **INcwadi yamaPhosta ye-Grade R Maths**

### *INcwadi yamaPhosta ye-Grade R Maths*

inamaphosta alitjhumi nanye. Amaphosta la athula ubujamo obujayelekileko lobo abafundi abangazihlobanisa nabo ukubamba amanye amahlangothi weembalo, isibonelo, ngetlasini, etatawini lokudlalela, nangephunyaneni. Amaphosta la anqophe ukuhlahlambisa ikareko nemikhulumiswano yeenhloko zeembalo, okufaka hlangana: iinomboro, amaphetheni, isikhala nebumbeko, ukulandelanisa isikhathi nokumeda. Amaphosta la angasetjenziselwa ukubandakanya abafundi ngokucabangisia okudephileko. Afaneleke khulu ukuthuthukisa amakghono wokurarulula imiraro nokuphenya ngeembalo.

Abotijhere bangakhuthaza abafundi bakhulumisane ngamaphosta bese babelane ngemicabango yabo ngokubuza imibuzo yokubahlahlakobana baqalane nephuzu elithileko kuphosta, isibonelo:

- Ukubala ngomlomo:** 1–10 naku-5–1.

**TIP**  
Remember to talk about the daily programme.  
Remember to do the calendar, days of the week, months of the year and birthday chart each day.

3. **Counting objects 1–5:** Learners look at the birthday chart. Together count the first five months of the year. Discuss the fact that learners have just returned from a holiday and draw their attention to the current month of the year.

**Guiding questions:**

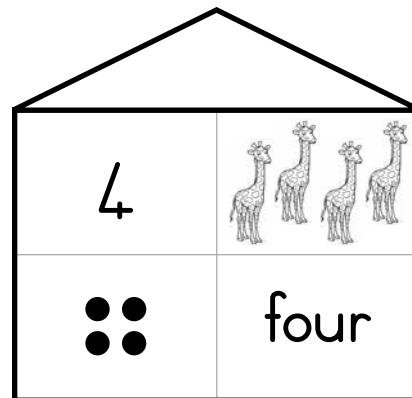

- ★ Which month are we in?
- ★ Which is the first month?
- ★ Are there any months that have five learners' names in it? (If there are, count these together.)

4. **Introducing number '4':** Point to number friezes 1 to 3.

**Guiding questions:**

- ★ How many animals do you think will live in the next house?
- ★ Will there be more or fewer than 3?

Tell the *Number 4 story*. The animals' house is the focus of the story. Show the parts of the number frieze as you build up the story of the animals and images of the house: the different representations of number 4, for example, the picture, the dots, the symbol and the word. Display the parts of the frieze in the animal house on the wall in the maths area. Count the giraffes together.

**Guiding questions:**

- ★ Who has seen a giraffe before? Where?
- ★ How do you think they move?
- ★ How does an elephant/a zebra/a meerkat move?
- ★ How many more giraffes are there than meerkats?
- ★ How many fewer meerkats are there than giraffes?
- ★ If one giraffe went to the meerkats' house, how many animals would be in the meerkats' house?

**TIP**  
Make daily oral counting fun. Include ideas from learners when possible.

2. **Oral counting:** 1–10 and 5–1.
3. **Counting objects 1–5:** Learners sit in a circle. Place four groups of fruit counters on the mat: five bananas, three oranges, two apples and four strawberries.

**Guiding questions:**

- ★ How many bananas/oranges/apples/strawberries do you think there are?
  - ★ Which pile has the most/fewest fruit?
- Count each pile of fruit together.

4. **More than/fewer than; equal to:**

Focus on the oranges and apples.

**Guiding questions:**

- ★ What do we need to do so that the number of oranges/apples is equal to the number of strawberries?
- ★ How can we make the group of oranges/apples have four?

5. **Maths table:** Learners go outside in groups of four. Each learner in a group should collect a similar small object, for example, twigs or leaves. Learners return to sit on the mat in their groups. Each group says what, and how many, they have found. Discuss the similarities and differences between collections. Give each group a number 4 dot, symbol or word card. One at a time, each group puts their objects and number 4 card on the table.

## Whole class activities

### Day 1

#### What you need

- Cardboard cut-outs (medium sized): 4 triangles, 3 circles, 7 squares
- 16 triangle, circle, square attribute blocks (*Resource Kit*)
- Song: *Making fruit salad* (page 194)
- Number 4 labels from maths table (from Week 1)

**TIP**  
Cardboard is three-dimensional. It has length, breadth (width) and height. In Grade R we use cut-outs to show two-dimensional shapes, such as circles, squares, triangles and rectangles. Focus on the shape: the length, how wide the 'shape' is, the lines, the corners or points.

**TIP**  
Learners place shapes on the maths table in groups of four next to number 4 cards, as they go to their workstations.

1. **Song:** Sing *Making fruit salad*.
2. **Oral counting:** 1–15 and 5–1.
3. **Counting objects 1–7:** Learners sit in a circle. Together look at groups of four triangle, three circle and seven square cardboard cut-outs.

#### Guiding questions:

- ★ How many triangles/circles/squares do you think there are in this group?
- ★ Which group has more/fewer than the group with the triangles/circles/squares?

Count the triangles and circles together 1–7. Then count the squares.

4. **Practising position – next to, between, in front of, behind, on top of:** Learners fetch one shape each from the mat. Play 'Sizwe says'. Give different instructions for each shape as you guide learners.

#### Guiding instructions:

- ★ All those with circles put their shape *in front of* their knee, face, tummy. (Repeat with squares and triangles.)
- ★ Hold your circle *behind* your back, knee, and so on with one hand/both hands.
- ★ Try to fit your triangle *behind* your ear.
- ★ Walk with your shape balancing *on top of* your head.
- ★ Those with a triangle hold it *between* your knees.
- ★ Those with a circle put it *next to* your body. Now put it on the other side of your body. (Repeat with squares and triangles.)

5. **Position:** Introduce 'underneath'.

#### Guiding questions:

- ★ Can you sit/lie with your shape *underneath* you, *underneath* your hand on the floor, *underneath* your foot?
- ★ What other part of your body can you place your shape *underneath*?

6. **Small group activities:** Describe the activities at each workstation.

2. **Counting objects 1–7:** Learners sit in a circle with their tubs. They each count their 7 attribute blocks.
3. **Practising 1–4:** Guide learners to work with their shapes and number 1–4 symbol and dot cards.

#### Guiding questions:

- ★ Can you make two groups? One group with four shapes and one group with three shapes?
  - ★ Can you put your matching dot cards and number symbol cards next to these groups?
  - ★ Can you put your hand next to the group that has more/fewer shapes?
  - ★ How can we make these groups equal?
4. **Sorting:** Put all the shapes in a pile in the middle of the mat.

#### Guiding questions:

- ★ What is the same/different about these shapes?
- ★ What colours do you see?
- ★ How can we sort these shapes?

Attribute blocks are three-dimensional objects. In Grade R we talk about ‘blocks’ that ‘look like’ two-dimensional shapes, such as circles, squares, triangles and rectangles. Remember to focus on the face of the attribute block when talking about a shape.

Beka ikoloyi yokudlalisa lapha uMalusi ajame khona esithombeni bese ubeka ikwekwezi endaweni aya kiyo. Abafundi benza sengathi uMalusi ungekoloyini, bese bayakulayela lokha nawutjhidisa ikoloyi.

- ★ Khuyini uMalusi akubonako okumzungezileko?
- ★ Angeza anqophe lapha? (Khomba.)
- ★ Ngiyiphi indlela angatjhayela ngayo ukuya e \_\_\_\_\_?

## Whole class activities

### Day 1

#### What you need

- An A4 picture of a circle and a square for the maths table
- Circle-shaped objects (for example, cups, wastepaper bin, yoghurt containers, lids) hidden in the classroom
- Square- and rectangle-shaped objects (for example, boxes, dice, blocks, lunch boxes) hidden in the classroom

1. **Rhyme:** Learners choose a song or rhyme from previous weeks to sing or say.

2. **Oral counting:** 1–20 and 7–1.

3. **Counting objects 1–7:** Learners go on a hunt to find objects in the classroom that look like circles, squares or rectangles. (Make sure that you have enough objects so that there is one per learner.) Learners place the objects in the middle of the mat and sit in a circle. Together sort the objects into two groups: one with objects that are circular and another with objects that have corners, flat sides and straight edges (square and rectangular objects). Discuss why the objects have been sorted into these groups. Focus on the properties of the objects and discuss the shape.

#### Guiding questions:

- ★ Does this group of objects look as though it has more or fewer than seven objects?

Together count out seven objects that have a circular shape and point out that there are more than seven circle-shaped objects altogether in that group. Repeat this with the other group of square- and rectangle-shaped objects. Put the seven items from each group on the maths table next to the circle and square/rectangle pictures.

4. **Sorting; more than, fewer than, equal to:** Look at the objects that are left.

#### Guiding questions:

- ★ Do you think there are more objects that look like circles, or more objects that have straight edges and corners?

- ★ What do we need to do to find out?

Together sort the objects into two groups and talk about them.

- ★ Do you think these two groups have an equal number of objects in them?

- ★ Which of these two groups do you think has more/fewer objects?

- ★ Which is the smallest/biggest object in this group?

- ★ What different colours can you see in this group?

- ★ What are the objects in this group made of?

- ★ How else can we sort these objects?

**TIP**  
Properties of 3-D objects include length, width, height. Talk about sides, edges and corners.

**TIP**  
To help learners as they sort, provide two big containers, one labelled with a picture of a square and a rectangle, and another labelled with a picture of a circle.

# Imisebenzi yetlasi yoke

## Ilanga 1

### Okudingako

- Isithombe se-A4 sendulungu nesikwere zetafula yeembalo
- Izinto ezinebumbeko lendulungu (isibonelo, ikopi, ithunga leenzibi, iimphathi zeyogathi, iimvalo) ezifihlwe ngetlasini
- Izinto ezinebumbeko lesikwere noncamane (isibonelo, amabhoksi, amadayisi, amabhlogo, iimphathi zokudla kwemini) ezifihlwe ngetlasini

1. **Umlolozelo:** Abafundi bakhetha ingomanofana umlolozelo keye yemveke ezidlulileko kobana bazivumenofana bayitjho.
2. **Ukubala ngomlomo:** 1–20 nali-7–1.
3. **Ukubala izinto 1–7:** Abafundi bayakhamba bayokuzuma bafuna izinto ngetlasini ezifana neendulungu, iinkwerenofana aboncantathu. (Qinisekisa bonyana unezinto ezaneleko kobana umfundin gamunye abe nayinye.) Abafundi babeka izinto phakathi komada bese bahlala ngendulungu. Hlelani izinto ndawonye ngamananeko weenqhema ezimbili: sinye sibe nezinto eziyindulungu esinye sibe nezinto ezinamakhona, amahlangothi asipara nezinemiphetho onqophileko (izinto ezisikwere neziboncamane). Khulumani ngokobana kubayini izinto zihlelwe ngamananeko weenqhema lezi. Qalana namatshwayo wezinto begodu nikhulume ngamabumbeko.

### Imibuzo ehlahlako:

- ★ Ingabe isiqhema sezinto lesi sibonakala kwangathi sinezinto ezinenginofanaezimbalwa kunezinto ezilikhomba?
- Balani izinto ezilikhomba nindawonye ezinebumbeko eliyindulungu bese niyatjengisa bonyana zinengi kunezinto ezilikhomba zamabumbeko ayindulungu nakahlangeneko esiqhemeni. Buyelela lokhu nezinye iinqhema zezinto zamabumbeko wesikwrene newakancamane. Beka ama-ayithemu alikhomba wesiqhema ngasinye emadeni eduze neenthombe zendulungu nezesikwere/nezikancamane.

4. **Ukuhlela ngamananeko; kunengi ngaphezulu kwe, kumbadlwana kuna, kulingana naku:** Qala izinto eziseleko.

### Imibuzo ehlahlako:

- ★ Ucabanga bonyana kunezinto ezinengi eziqaleka njengeendulungu,nofana kunezinto ezinengi ezinemiphetho namakhona?
  - ★ Khuyini okufanele sikwenze kobana sikwazi ukuthola?
- Hlelani izinto ngeenqhema ezimbili bese nikhuluma ngazo.
- ★ Ucabanga bonyana iinqhema ezimbili lezi zinenani elilinganako lezinto ngakizo?
  - ★ Ngisiphi seenqhema ezimbili lezi esinezinto ezinengi/mbadlwana?
  - ★ Ngyiphi into ekulu khulu/encani khulu esiqhemeni lesi?
  - ★ Ngimiphi imibala ehlukileko oyibonako esiqhemeni lesi?
  - ★ Izinto ezisesiqhemeni lesi zenziwe ngani?
  - ★ Singazihlela njani ngamananeko izinto lezi godu?

Amatshwayo wezinto ze-3D afaka hlangana ubude, ububanzi, ukuphakama. Khulumani ngamahlangothi, imiphetho namakhona.

Ukusiza abafundi lokha nabahlela ngamananeko, banikele iimphathi ezimbili ezikulu, esisodwa silebuliwe ngesithombe sesikwere nesikancamane, bese esinye silebuliwe ngesithombe sendulungu.

Learners sort objects into groups, as decided on by the class.  
Leave the objects in the maths area for further exploration.

5. **Small group activities:** Describe the activities at each workstation.

## Day 2

2. **Oral counting:** 1–20 and 7–1.
3. **Counting objects 1–7:** Learners sit in a circle. Place seven toy cars or trucks on the mat.

#### Guiding questions:

- ★ How many vehicles do you think there are?

Together count the cars or trucks from 1 to 7.

4. **Data collection, sorting:** Learners stand in a circle. Call out different questions about how learners came to school today. Ask questions based on what you know of your learners' experience and how they come to school.

#### Guiding questions:

- ★ Did you walk to school today?

- ★ Did you come to school in a car today?

- ★ Did you come to school in a taxi today?

- ★ Did you come to school by bus today?

Learners who answer yes, step into the circle. Discuss the learners' responses.

- ★ Who only stepped in once?

- ★ Who stepped in more than once? Why?

Learners think of other ideas, based on transport and call out categories.

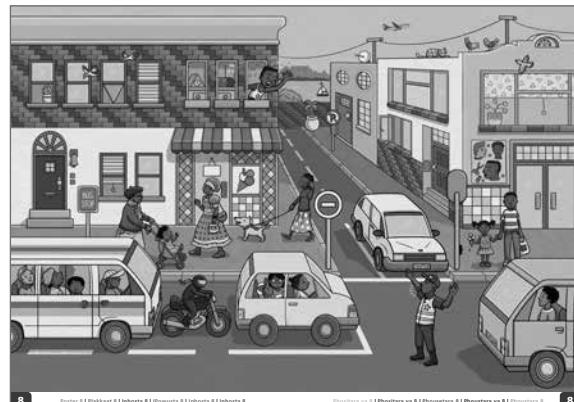

5. **Talk about different kinds of transport:** Discuss Poster 8. Talk about what types of transport learners can see.

#### Guiding questions:

- ★ How many different kinds of transport can you see?

- ★ Are there more/fewer on the ground or in the air?

- ★ What is the same about the transport on the ground?

If learners do not fit into these categories suggest that they choose the transport that they have used most often or even once in the past to get to school.

Abafundi bahlela izinto ngeenqhemu, njengesiqunto esithethwe yitlasi. Lisa izinto endaweni yeembalo kobana zisazakuhlolwa godu.

- Imisebenzi yesiqhema esincani:** Tlhadlhula imisebenzi esesitetjhini sokusebenzela ngasinye.

Learners place their smiley face cards in the appropriate column above the correct mode of transport to complete the pictograph. Cards must be placed touching one another without spaces between them (see page 128).

### TIP

The question about types of transport must be appropriate to the context of your learners.

### TIP

Learners' cards must be the same size.

- ★ Nangabe bayalahleka, ngiyiphi inomboro abangakudosela kiyo? Hlahla abafundi bonyana balingise ngokutjelana iinomboro zabo zomrhala. Tlola lokhu ephepheni. Buyelela nabanye abafundi.
- ★ Zikhona iinomboro ezibuyeleweko kilezi iinomboro zomrhala?

6. **Practising phone numbers; reinforcing numbers 1–5:** Learners each hold a copy of their phone number. They follow your directions, for example: ‘Stand if you have a 4 in your phone number.’ ‘Wave if you have a 3.’
7. **Small group activities:** Describe the activities at each workstation.

### Integration

**Home Language and Life Skills:** Write numbers 1 to 5 in a circle outdoors with chalk. Learners count as they move around the circle and step on each number. Create an outdoor pathway of number words from one to five by writing them in order over and over again. Let the learners ‘read’ the words as they walk down the path.

### Week 1

#### Counting song: *Making fruit salad*

This is the way we make salad, make salad, make salad,

We fetch one banana, one banana, one banana,

(Repeat with three oranges, four grapes.)

And add some juice.

#### Story: *Number 4 story (with Number 4 frieze template)*

Next came the Giraffes. There were four of them. They looked at the other three houses and wondered how they would manage to fit into a house with their long necks. They decided that because there were four of them, they would need four high windows so that they could open them wide and stretch their long necks out.

The number symbol 4 and number word four, went on the front of the house where everyone could see them. And the four doorbells went on the door.

When the Giraffes went outside, they had to bend down very low to fit through the door, just as they did when they drank water from the nearby stream. When they stood up straight, they were tall enough to look into their house through the high windows, and could almost see over the top of their house. They loved living next to the Meerkats and chatted to them every day.

### **Story: Number 5 story (with Number 5 frieze template)**

The five Monkeys love to swing between the five branches of the tree in their garden. They also have five poles in between the tree and their house. To get inside they often swing from these onto the roof of their house and in through the windows. They do this instead of going through the door. Next to the door is a big flowerpot with five flowers.

When the Monkeys get tired and need a rest, they often swing down from the roof through one of the five windows instead of going into the house through one of the five doors. Otherwise they rest on their five hammocks outside. There are five so each one has their own.

All the animals stood in the road together to look at their marvellous houses: Elephant was in number 1, the Zebras were in number 2, the Meerkats were in number 3, the Giraffes were in number 4 and the Monkeys were in number 5. They had a party to celebrate their friendship and their smart houses.
