Improvement Programme

**UmHlahlandela
wemiSebenzi: Ithemu 3**

Activity Guide: Term 3

The Grade R Mathematics and Language Improvement Project is an initiative of the **Gauteng Department of Education** and its key partner, the **Gauteng Education Development Trust**.

The development and production of the training and classroom resources for the Grade R Mathematics and Language Improvement Project were made possible by generous project funding from the **United States Agency for International Development** and the **Zenex Foundation**.

The Grade R Mathematics and Language Improvement Project is managed by **JET Education Services** with **UCT's Schools Development Unit** and **Wordworks** as technical partners.

The **Schools Development Unit** (SDU) at the **University of Cape Town** (UCT) is the mathematics technical partner to the Grade R Mathematics and Language Improvement Project. The SDU is a unit within UCT's School of Education that focuses on teachers' professional development in Mathematics, Science, Literacy/Language and Life Skills from Grade R to Grade 12. The SDU offers teacher qualifications and approved UCT short courses, school-based work, materials development and research to support teaching and learning in all South African contexts.

This edition of the mathematics materials has benefitted from collegial engagement with Wordworks colleagues and has been improved by their alignment with the materials of the Language Improvement Programme. It has been enriched by the work of officials of the Gauteng Department of Education's Early Childhood Development and Foundation Phase Curriculum Sub-Directorates at District and Provincial level who have made valuable contributions to the content of the materials and engaged constructively to ensure alignment with provincial policies, practices and values.

Introduction

The Grade R Mathematics Improvement Programme (Grade R Maths) is based on a good knowledge of mathematics, an understanding of the progression in the Grade R curriculum, and a realisation that some teaching approaches are better suited to promote particular learning and outcomes.

The Grade R Maths *Activity Guide: Term 3* offers a structure for teaching maths in the third term of Grade R by:

- sequencing the content of each Mathematics Content Area across ten weeks
- providing progression and pacing within the five Content Areas
- focusing on one main Content Area per week (However, topics from other Content Areas may be introduced and practised during that week. Number-related learning and teaching takes place every day and is integrated into all the Content Areas.)
- suggesting activities for whole class, teacher-guided and independent group work.

Features of Activity Guide: Term 3

The following features form part of *Activity Guide: Term 3*:

- A content overview shows the new knowledge and practice focus per week.
- Term, week and Content Area Focus are clearly stated at the beginning of each week.
- Topics, New knowledge and Practise boxes show what will be covered in the week.
- New maths vocabulary to be taught is listed per week.

- Tip boxes give ideas and reminders.
- Integration boxes suggest how the maths can be reinforced in other subjects and daily activities during the Grade R daily programme.
- ‘Check that learners are able to’ boxes guide observation and continuous assessment.
- A continuous assessment page is based on the term’s activities.
- Resources and templates are included at the back of the guide.

Grade R Maths in the daily programme

Routine is important and learners enjoy the repetition and feel secure when they know what to do and what is expected of them.

Planning is also important to ensure that the routine runs smoothly. Read the contents for the week and prepare all the materials you will need for each day in advance. Set out the materials for the day beforehand so that everything is ready in the morning.

Grade R Maths suggests a sequence of activities that are repeated daily over a five-day week. Classroom organisation and activities that can be used to teach and reinforce maths concepts are suggested per week. These include:

Isingeniso

IHlelo lokuThuthukisa iimBalo zeGreyidi R (*i-Grade R Maths*) lisekelwe phezu kwelwazi elihle leembalo, ukuzwisa iragelo phambili lekharikhyulamu yeGreyidi R, nokulemuka bonyana ezinye iindlela zokufundisa zikhambisana ngcono nokuhutjhulwa kokufunda nemiphumela ethileko.

UmHlahlandlela wemiSebenzi ye-Grade R Maths: Ithemu 3 inikela isakhiwo sokufundisa iimBalo kuthemu yesithathu ye-Greyidi R ngoku:

- landelanisa okumumethweko kwesiGaba sokuMumethweko seemBalo ngasinye eemvekeni ezilitjhumi
- nikela iragelophambili nebelo lokusebenza phakathi kweenGaba zokuMumethweko ezhlanu
- nqophana nesiGaba sokuMumethweko esisodwa esiqakathekileko ngeveke (Nanyana kunjalo, iinhloko ezivela kezinye iinGaba zokuMumethweko zingathulwa bezenziwe phakathi kweveke leyo. Ukufunda nokufundisa okukhambelana neenomboro kwenzeka ngamalanga begodu kuhlanganiswe nazo zoke iinGaba zokuMumethweko.)
- veza imibono ngemisebenzi yetlasi yoke, ehlahlwa ngutitjhhere nomsebenzi wesiqhema ozijameleko.

I-Grade R Maths ehlelwini langamalanga

Ikambiso iqakathekile begodu abantwana bayakuthabela ukubuyeleta begodu bazizwa baphephile lokha nabazi bonyana kufanele benzeni nokobana khuyini okulindelwe kibo.

Ukuplana nakho kuqakathekile ukuqinisekisa bonyana ikambiso ikhamba butjhelela. Funda okumumethweko kweveke bese ulungisa yoke imatheriyali ozayidinga yelanga ngalinye isikhathi siserekhona. Khupha imatheriyali yelanga ngaphambi kwesikhathi kube yoke into sele ilungile ekuseni.

I-Grade R Maths inesiphakamiso semisebenzi elandelanako ebuyeletwa ngamalanga evekeni yamalanga amahlanu. Ukuhleleka kwetlasi nemisebenzi engasetjenziselwa ukufundisa nokugandelela imiqondo yeembalo iyaphakanyiswa ngeveke. Lokhu kufaka hlangana:

Whole class activities per day

- Rhyme or song
- Oral counting
- Counting concrete objects
- Activities and questions linked to Content Area topics

At the end of the whole class activity, show the learners what they will be required to do at their workstations. All the materials they need should be set out so that they can begin working on the activities.

Transitions: moving between activities

Moving between the mat and the workstations is a great time to practise rhythmic counting and fun, creative ways to move, for example, slowly like tortoises, hopping like rabbits, quietly like mice, one by one with their name/picture symbol cards.

Small group activities

- There is one teacher-guided activity per day.
- There are four small group activities per day. These four independent activities (or side activities) should be set out at four **workstations** around the classroom – either at tables where the learners are seated or stand, or on the mat, or outside. The groups rotate to each **workstation** over the course of a week, depending on how the teacher has planned the activities. Remind learners to take turns, share materials and help each other while working.

Tidy-up time

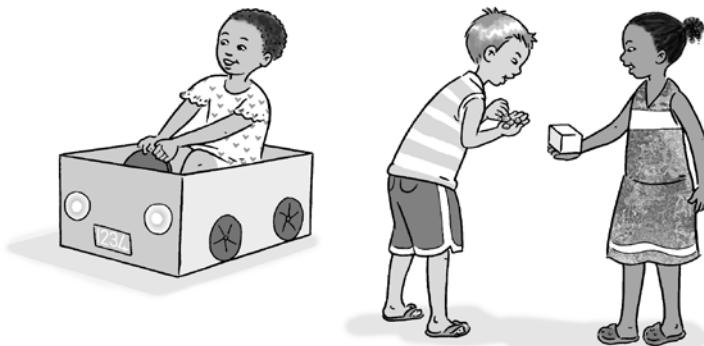

Learners need to know where materials belong. A shelf or table that is dedicated to maths equipment will help learners to be organised. Encourage learners to help each other during tidy-up time. Initially learners will need assistance and you will have to remind them where to put things, but they will soon get into the routine of putting things where they belong.

Choose group leaders and tidy-helpers each week. Give them specific tasks and responsibilities.

Free choice activities

Set out creative, interesting activities that learners can choose from once they have completed their workstation activity. These could include:

- blocks or other construction toys
- puzzles
- playdough
- books in the reading corner
- fantasy play, for example, shopping
- workbook or worksheet pages.

Assessment

Observation and continuous assessment during teacher-guided and whole class activities provides opportunities for insights into and a good overview of each learner's progress. This information is important for guiding further teaching and interventions for individual learners. The continuous assessment checklist on pages 186 and 188 of this guide is based on the content that has been taught in Term 3. This template can be used to record each learner's progress during the term.

Grade R Maths in the classroom

Set up an area in the classroom that is dedicated to maths and is near the mat. This is a shared space where learners can contribute to and engage with the topic they are learning about. An ideal maths area will include:

- small table against a wall
- number line made with string and pegs
- daily weather chart
- calendar for each month with blocks for each day
- chart with the names of the days of the week
- daily programme with pictures for the different activities
- learners' name cards and symbols arranged according to their group names
- helpers' symbols to move between learners' names according to each day of the week
- helpers' chart.

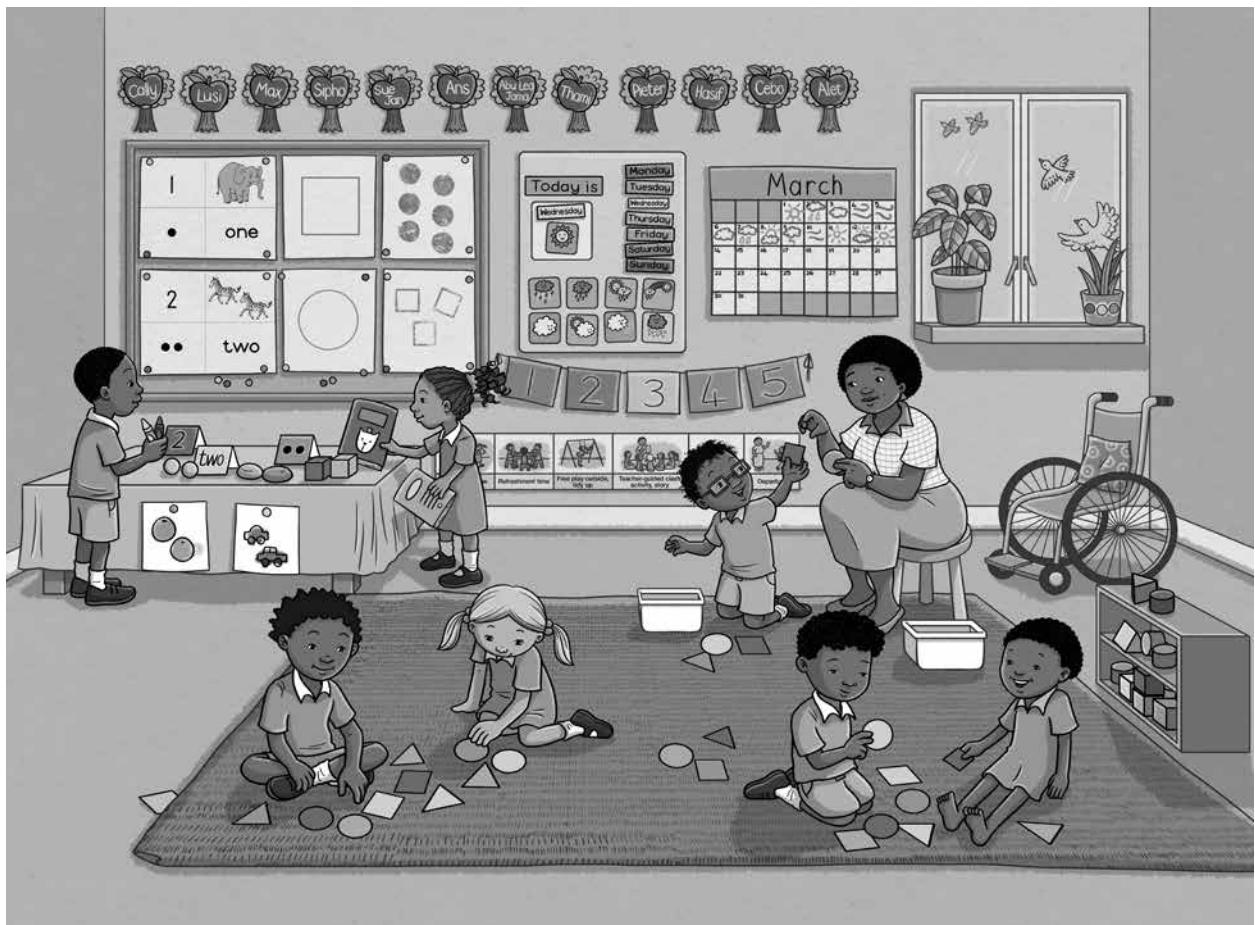

Ukuhlola

Okutjhejiweko nokuhlola okuragela phambili ngesikhathi semisebenzi ehlahlwa ngutitjhere neyetlasi yoke kunikela amathuba welwazi nehlathululo ehle yeragelophambili yomfundu ngamunye. Ilwazi leli liqakathekile ukuhlahla ukufundisa okuragela phambili nokungenelela emntwaneni ngamunye. Irhelo lokuhlola ukuhlola okuragela phambili elisekhasini 187 nele-189 womhlahlandlela lo linzinze kilokho okufundiswe kuThemu 3. Umfuziselo lo ungasetjenziselwa ukurekhoda iragelophambili lomfundu ngamunye ngesikhathi sethemu.

I-Grade R Maths ngetlasini

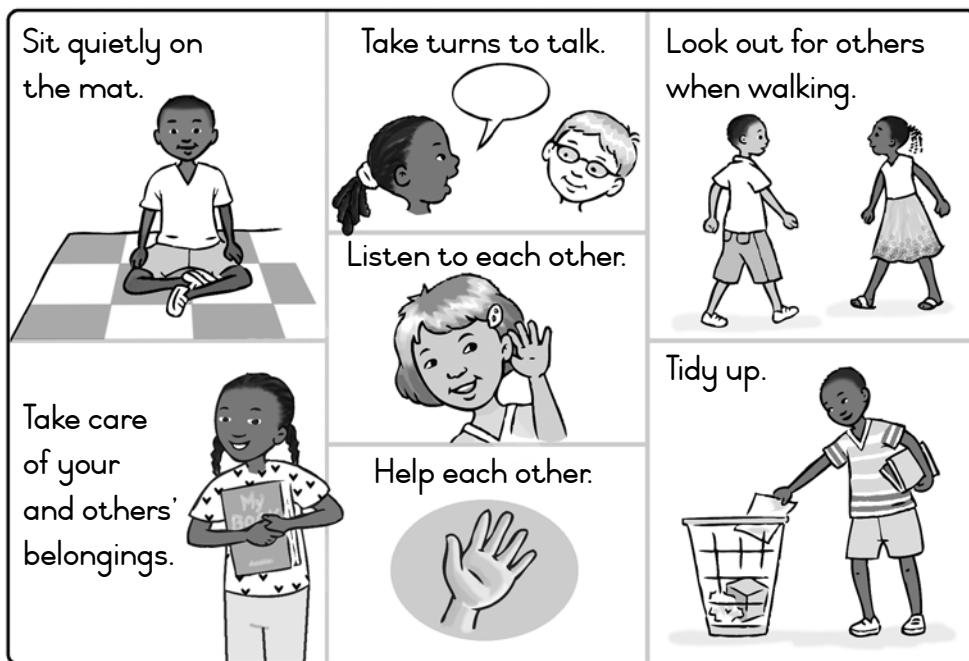

Lungisa indawo ngetlasini oyibekele iimbalo begodu eseduze nomada. Le yindawo ekwabelwana ngayo lapha abafundi banganikela bebazibandakanye nesihloko ebafunga ngaso. Indawo yeembalo efanelekileko ifaka hlangana:

- itafula encani esame ngeboda
- inambalayini eyenziwe ngentambo namaphegsi
- itjhadi lobujamo bezulu bangamalanga
- ikhalenda yenya ngeyinye enamabhlogo welanga ngalinye
- itjhadi elinamagama wamalanga weveke
- ihlelo langamalanga elineenthombe zemisebenzi ehlukileko
- amakarada namatshwayo wamagama wabafundi ahlelwe ngokuya kwamagama weenqhema zabo
- amatshwayo wabasizi azokukhamba phakathi kwabafundi ngokuya ngokwamalanga weveke
- itjhadi labasizi.

Make a ‘classroom rules’ poster with the learners. Display it where they can easily see it. There should be no more than six or seven rules.

Resources for Grade R Maths

Grade R Maths Resource Kit

Grade R Maths provides a kit for learning and teaching maths that provides apparatus for a small group of six to eight learners to use. The kit includes the following items:

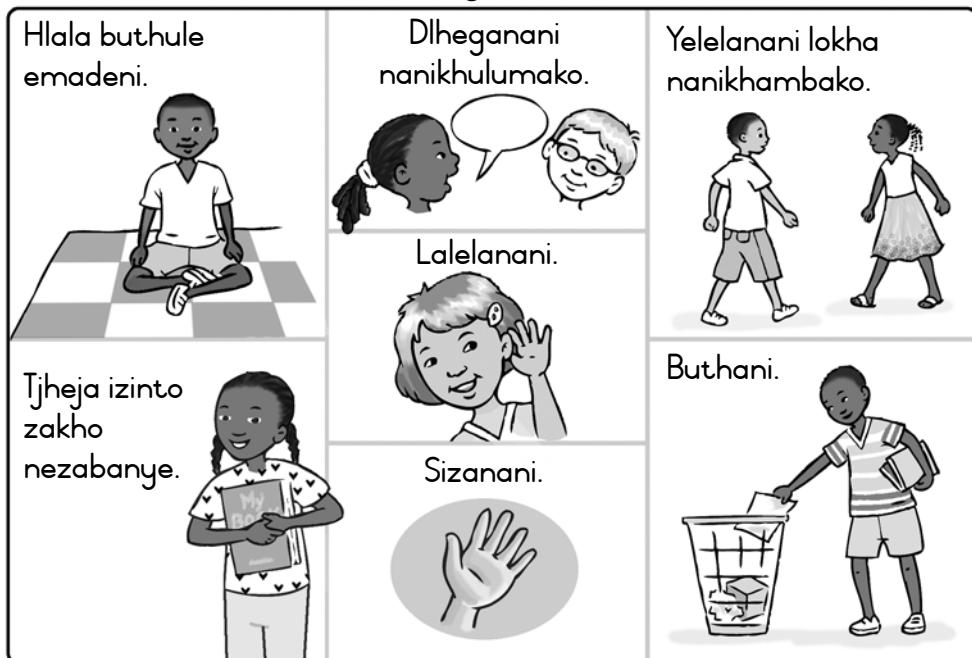

- counting materials, for example, coloured discs and sticks, fruit and animal counters, Unifix blocks
- jumbo dice
- strings of ten structure beads
- dot cards
- number cards: number symbols (0–10) and number words (zero–ten)
- attribute blocks.

These should not be the only resources that teachers and learners use during maths activities. Everyday objects from home are ideal for sorting, counting and exploring shapes.

Yenza iphosta etlolwe ‘imithetho yetlasi’ nabantwana. Ikhangise lapha bazayibona khona ngobulula. Imithetho ayingadluli kwemithandathunofana elikhomba.

Imithetho yetlasi lethu

Ilinsetjenziswa ze-Grade R Maths

IKhidi yeenSetjenziswa ze-Grade R Maths

I-Grade R Maths inikela ngekhidi yokufunda nokufundisa iimbalo enikela ngeensetjenziswa zeenqhemazincani zabafundi abasithandathu ukuya kababunane kobana bazisebenzise. Ikhidi ifaka lokhu okulandelako:

- imatheriyali yokubala, isib. amadiski neengoqwana zembala, iimbalisi zeenthelo neenlwana, namabhlogo we-Unifix
- idayisi elikhulu
- imitja yemincamo ehlelekileko elitjhumi
- amakarada wamaqatjhazi
- amakarada weenomboro: amatshwayo weenomboro (0–10) iinomboromagama (ziro ukuya etjhumi)
- amabhlogo wamatshwayo.

Lokhu akungabi ngizo zodwa iinsetjenziswa utitjhere nabantwana abangazisebenzisa ngesikhathi semisebenzi yeembalo. Izinto zangamalanga ezibuya emakhaya zifanelekile ekuhleleni ngamananeko, ukubala nekuhloleni amabumbeko.

Recycled materials

Store recycled materials in labelled containers with lids (such as: fruit and vegetable packaging, 2-litre ice-cream containers and 500-ml feta tubs). Place the containers on a shelf or somewhere that the learners can reach. Encourage learners to put the objects away during tidy-up time if they have used them at their workstations or during free choice activities. Here are some ideas for maths resources:

- bottle caps and lids (different shapes, sizes and colours)
- different-sized boxes (toothpaste, matchbox, cereal, medicine, packaging)
- plastic containers (500-ml and 1-litre bottles, margarine tubs, 250-ml and 500-ml yoghurt tubs, ice-cream containers, vegetable packaging)
- tubes and cylinders (cardboard toilet roll inners, paper towel inners, foil roll inners, tins)
- egg boxes
- buttons, old keys, plastic spoons, ice-cream sticks, bread packet tags
- variety of balls, beanbags, hula hoops.

Other resources

Other useful classroom resources for Grade R Maths teaching include:

- crayons, paint, glue, scissors
- playdough or modelling clay
- books that can be used for maths discussions
- building blocks and construction toys (collect wood offcuts if necessary)
- a variety of jigsaw puzzles and games, for example, dominoes, snakes and ladders, Ludo, Lotto

Imatheriyali eyenziwe kabutjha

Bulunga imatheriyali eyenziwe kabutjha ngeemphathini ezilebuliweko ezineemvalo (njengokuthi: izinto zokufaka iinthelo nemirorho, iimphathi ze-ayisikhrimu ezimalitha ama-2 neenkhafthinyana ze-feta ezi-500-ml). Beka iimphathi lezi etjhelfininofana kukuphi lapha abantwana bangazifikela khona. Khuthaza abafundi babuyisele izinto ngesikhathi sokubutha nangabe bazisebenzisile eentetjhini zabo zokusebenzela nofana ngesikhathi semisebenzi yokuzikhethela ngokutjhaphulukileko. Nasi eminye imibono mayelana neensemjenziswa zeembalo:

- iimvalo zamabhodlelo (amabumbeko, ubukhulu nemibala ehlukileko)

The Grade R Maths Poster Book

There are eleven posters in the Grade R Maths Poster Book. The posters present familiar contexts that learners can relate to that capture some aspect of maths, for example, in the classroom, on the playground, and in the kitchen. The posters are intended to stimulate interest and discussion on maths topics, including: number, patterns, space and shape, sequencing of time and measurement. The posters can be used to engage learners in critical thinking and reasoning. They are perfect for developing problem-solving skills and for maths investigations.

Teachers can encourage learners to discuss the posters and share their thinking by asking questions to guide them in focusing on a particular aspect of the poster, for example:

- What do you see in the picture?
- Where do you think the children/people are?
- What is happening in the picture?
- Can you tell me a story about the picture?
- How many ... can you see? What if there was one more/fewer ...?
- Where is the ...?
- What would happen if ...?
- What do you think will happen next?
- What do you think ... can see from where they are standing?
- What pattern can you see? Describe the pattern.
- What shapes can you see?
- Which ... is the tallest/shortest?
- Can you use any maths words to describe something in the picture?

- itjhadi lokuphakama
- amakarada wokudlala amakhulu
- isingamali: iinhlavu namaphepha (yokusetjenziswa esitolo sokudlalisa)
- iwatjhi ekulu yeboden iye-analogi
- isikala sokudzimelela
- imincamo yokuhlela, ukuphothela nokwenza amaphetheni
- iisetjenziswa zemidlalo yehlabathi namanzi
- iisetjenziswa zokukhwelela, ukudzimelela, ukujinka, nokweqayeqa.

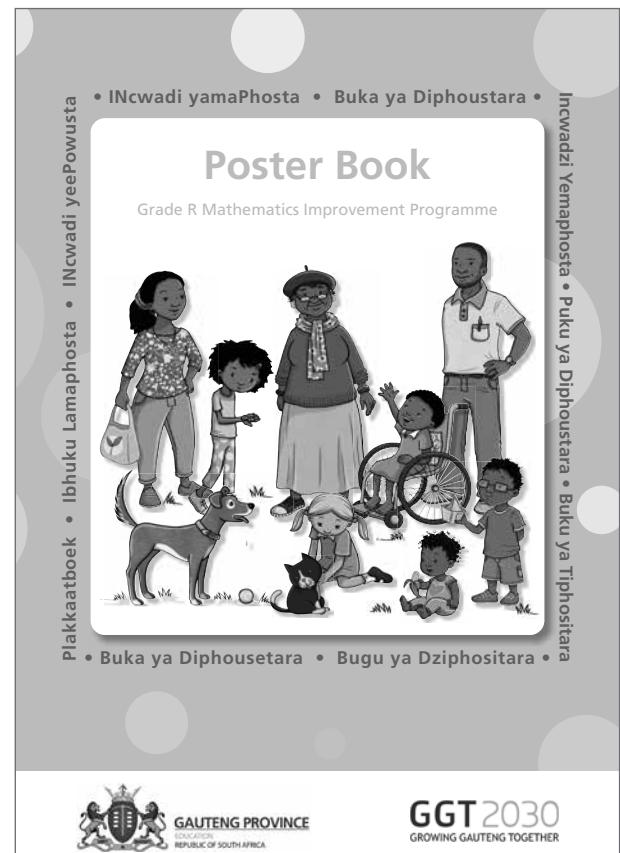

INcwadi yamaPhosta ye-Grade R Maths

INcwadi yamaPhosta ye-Grade R Maths

inamaphosta alitjhumi nanye. Amaphosta la athula ubujamo obujayelekileko lobo abafundi abangazihlobanisa nabo ukubamba amanye amahlangothi weembalo, isibonelo, ngetlasini, etatawini lokudlalela, nangephunyaneni. Amaphosta la anqophe ukuhlahlambisa ikareko nemikhulumiswano yeenhloko zeembalo, okufaka hlangana: iinomboro, amaphetheni, isikhala nebumbeko, ukulandelanisa isikhathi nokumeda. Amaphosta la angasetjenziselwa ukubandakanya abafundi ngokucabangisia okudephileko. Afaneleke khulu ukuthuthukisa amakghono wokurarulula imiraro nokuphenya ngeembalo.

Abotijhere bangakhuthaza abafundi bakhulumisane ngamaphosta bese babelane ngemicabango yabo ngokubuza imibuzo yokubahlahlka kobana baqalane nephuzu elithileko kuphosta, isibonelo:

Whole class activities

Day 1

What you need

- Unifix blocks
- Unifix pattern train
- Piece of A3 paper to create a train tunnel

TIP
Ask the learners if they can remember what number they were counting to before they went on holiday, and what number they were counting backwards from.

1. **Song:** Learners sing a song of their choice from previous terms.
2. **Oral counting:** 1–20 and 7–1.
3. **Counting objects 1–7:** Show learners a Unifix tower made of seven blocks.
Guiding questions:
 - ★ How many blocks do you think make up this tower?

Learners estimate the number of blocks. Remove the blocks one at a time as learners count them.
4. **What makes a pattern:** Place the Unifix pattern train inside the tunnel. Pull the train out slowly and ask learners to notice what pattern emerges.
Guiding questions:
 - ★ What do you see?
 - ★ What colour block do you think will come out of the tunnel next? Why?
 - ★ Is this a pattern? What makes it a pattern?

Draw the learners' attention to the repeating part which makes the pattern.

Make another train with Unifix blocks that does not have a pattern. Repeat the activity with the train and the tunnel.

Guiding questions:

 - ★ Is this a pattern? Tell me why you think that.
 - ★ Can you see any patterns in the classroom?

TIP Place the tunnel in the block area and encourage learners to make their own pattern trains.

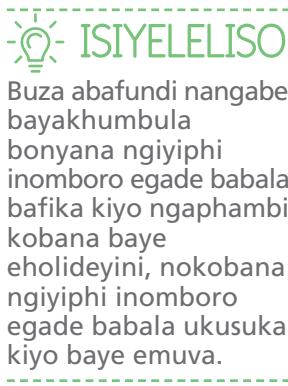

- Learners go on a pattern walk outside and discuss patterns.
- ★ Can you see a pattern? Tell me about it.
 - ★ Is there a pattern on the ...?
 - ★ What makes it a pattern?
 - ★ What part of the pattern repeats?
 - ★ Can you hear any patterns? Tell me what you hear.
5. **Small group activities:** Describe the activities at each workstation.

Imisebenzi yetlasi yoke

Ilanga 1

Okudingako

- Amabhlogo we-Unifix
- Isitimela sephetheni ye-Unifix
- Isiquntu sephepha le-A3 lokwakha umrhoba wesitimela

2. **Ukubala ngomlomo:** 1–20 nali-7–1.

3. **Ukubala izinto 1–7:** Khombisa abafundi umbhotjhongo we-Unifix owenziwe ngamabhlogo alikhomba.

Imibuzo ehlahlako:

- ★ Ucabanga bonyana mangaki amabhlogo akha umbhotjhongo lo? Abafundi balinganisa inani lamabhlogo. Susa amabhlogo ngalinye lokha abafundi nabawabalako.

4. **Okwenza iphetheni:** Beka isitimela sephetheni ye-Unifix ngaphakathi komrhoba. Dosa isitimela siphume kabuthaka bese ubawa abafundi bayelele bonyana yiphetheni enjani evelako.

Imibuzo ehlahlako:

- ★ Khuyini okubanako?
- ★ Ucabanga bonyana ngimuphi umbala olandelako ozakuphuma ngaphakathi komrhoba? Kubayini?
- ★ Ingabe yiphetheni le? Khuyini okuyenza ibe yiphetheni? Dosela itjhejo labafundi engcenyeni ebeyelelako eyenza iphetheni. Yakha esinye isitimela ngamabhlogo we-Unifix esinganayo iphetheni. Buyelela umsebenzi wesitimela nomrhoba.

Imibuzo ehlahlako:

- ★ Yiphetheni le? Ngitjela bonyana kubayini ucabanga njalo.
- ★ Kukhona amaphetheni owabonako ngetasini?

ISIYELELISO

Beka umrhoba endaweni yamabhlogo bese ukhuthaza abafundi benze iintimela zabo zamaphetheni.

Abafundi bathatha ikhambo lephetheni ngaphandle bese bakhulumisana ngamaphetheni.

- ★ Kukhona iphetheni oyibonako? Ngicocela ngayo.
- ★ Ingabe kunephetheni phezu kwe...?
- ★ Khuyini okuyenza kube yiphetheni?
- ★ Ngiyiphi ingcenyen yephetheni ebeyelelako?
- ★ Kukhona iphetheni oyizwako? Ngicocela ngalokho okuzwako.

5. **Imisebenzi yesiqhema esincani:** Tlhadihula imisebenzi yesitetjhini sokusebenzela ngasinye.

Day 2

Remember to talk about the daily programme.
Remember to do the calendar, days of the week, months of the year and birthday chart each day.

What you need

- Rhyme: *It's pattern time* (page 190)
- Pattern card with colour dots

1. **Rhyme:** Say the first verse of the rhyme, *It's pattern time*.
2. **Oral counting:** 1–20 and 7–1.
3. **Counting objects 1–7:** Learners count from 1 to 7 while clapping hands with a partner.
4. **Sound patterns from visual patterns:** Show learners the pattern card. Point to each dot and together say the colours. Discuss the pattern.

Guiding questions:

- ★ Can you see the pattern?
- ★ Tell me about the pattern.
- ★ What part of the pattern repeats?
- ★ What will come next in the pattern?

Learners use the visual pattern to make a sound pattern, for example, clap hands for red, snap fingers for yellow.

- ★ What sound should we make on the red/yellow circle?
- ★ What sound should come next?
- ★ What other sounds would you like to make?

Learners suggest other sound pattern ideas, using the same pattern card.

5. **Small group activities:** Describe the activities at each workstation.

Day 3

What you need

- Rhyme: *It's pattern time* (page 190)
- 6 large playdough fruit
- Cloth/towel

1. **Rhyme:** Say the first and second verses of the rhyme, *It's pattern time*, with actions.
2. **Oral counting:** 1–20 and 7–1.
3. **Counting objects 1–7:** Use chalk to draw a straight line on the floor. Five learners stand on one side of the line.

Guiding questions:

- ★ How many learners are there?
- ★ If we add one more learner how many will there be?
- ★ And one more learner?
- ★ What should we do if we want only four learners?

Ilanga 2

If you do not have instruments, use blocks, tins, sticks and pieces of paper to flick, or learners can use their bodies, for example, stamp their feet on the floor or slap their legs.

1. **Rhyme:** Say the rhyme, *It's pattern time*.

2. **Oral counting:** 1–20 and 7–1.

3. **Counting objects 1–7:** Learners fetch instruments. All the learners with the same kind of instrument sit in a group. Play seven beats on a drum.

Guiding questions:

- ★ How many beats did you hear?
- ★ How do you know?

Starting with 1, each group makes one more beat than the previous group, until one group gets to 7.

4. **Rhythm patterns:** Divide learners into groups. Give each group a different musical instrument. The groups make sounds with their instruments and describe these sounds. Then they compare the sounds that the different instruments make.

Guiding questions:

- ★ What does your instrument sound like?
- ★ Can you make a soft/loud sound; a fast/slow sound?
- ★ How do the instruments sound the same/different?

4. **Ukufanisa ingceny ephetheni engekho:** Sebenzisa iinthelo zehlama yokudlalisa ukwakha iphetheni. Khombani i-ayithemu ngayinye bese nitjho iphetheni ndawonye.

Imibuzo ehlahlako:

- ★ Khuyini okulandelako?
- ★ Khuyini iphetheni?

Vala iinthelo ngetjhila bese ukhupha isiquntu sinye sesithelo. Susa itjhila.

- ★ Ngisiphi isithelo esingekho ephethenini?
- ★ Ngimuphi umhlobo wesithelo ekufanele ulandele ephethenini? Kubayini?

Buyelela umsebenzi lo amahlandla ambalwa, ngokukhupha isithelo eengcenyeni ezhilukileko zephetheni begodu/nofana ngokungezelela inani leenthelo ezingekho ngaso soke isikhathi.

Home Language: Emergent Writing: Draw patterns.

Life Skills: Fine motor development: Identify, copy and extend patterns in the environment. Gross motor development: Paint a hopscotch grid outside or draw one on the ground with chalk. Learners jump on the blocks of the grid following the number sequence, landing with feet together or feet apart, depending on the number of blocks in each row of the grid.

1. **Structure beads:** Ask learners to show you a number of beads between 1 and 7. Learners put the beads into different arrangements of the same number.

Guiding questions:

- ★ How many red/yellow beads are there?
- ★ Can you show me seven beads?
- ★ Show me four beads. What did you do to make four?
- ★ What should you do to have six beads?

Guiding questions:

- ★ What did I put on the tray first?
- ★ What did I put on the tray next?
- ★ What did I put on the tray last?

Now learners should look at the tray and try to remember what objects are on it. Cover the tray with a cloth and then remove one object. Lift the cloth. Learners say which object is missing. Repeat, removing a different object each time.

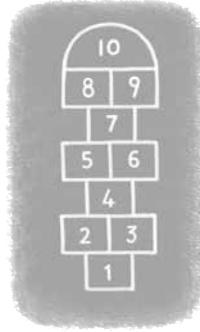

3. **What’s missing? pattern:**

Learners take a ‘What’s missing?’ pattern card from their tub. They say which part of the pattern is missing and arrange their attribute blocks to copy the pattern, filling in the missing part.

Guiding questions:

- ★ What comes first/next/last?
- ★ What is missing?

 **TIP**

If a pattern with two attributes is too difficult for learners, they can make a pattern with one attribute.

4. Copying and extending own pattern:

Learners use their Unifix blocks to copy and extend a pattern from the Unifix pattern card (vertically and horizontally).

Guiding questions:

- ★ What comes before/after/next?
- ★ Can you finish the pattern?
- ★ What part of the pattern repeats?

5. Create own pattern: Learners create a pattern with attribute blocks and explain their pattern. For example:

- ★ One attribute: shape: circle, square, triangle.
- ★ Two attributes: colour and shape: red circle, yellow square, green triangle.

Guiding questions:

- ★ Can you describe your pattern?
 - ★ What makes it a pattern?
 - ★ How can you carry on your pattern?
- Make a sequence of attribute blocks that is not a pattern.
- ★ Is this a pattern? Tell me why not.

Check that learners are able to:

- break down and build up numbers between 1 and 7
- create and explain their own pattern with three colours and shapes
- extend a repeating pattern
- explain whether something is a pattern or not
- show the part of the pattern that repeats

Tell the *Number 6 story*. The animals' house is the focus of the story. Show the parts of the number frieze as you build up the story of the animals and images of the house: the different representations of number 6, for example, the picture, the dots, the symbol and the word. Display the parts of the frieze in the animal house on the wall in the maths area. Count the ducks together.

Guiding questions:

- ★ Who has seen a duck before? Where?
- ★ What noise does a duck make?
- ★ Can you quack six times? Can you waddle as you quack?
- ★ How many more ducks are there than monkeys?
- ★ How many fewer giraffes are there than monkeys?

Guiding questions:

- ★ What shape is this?

Discuss how the shape can be folded, corner to corner, so the folded sides are exactly the same as each other.

- ★ How can we fold this rectangle so that it has two sides that are exactly the same?

Give each learner a paper shape. Learners fold their shapes so that the two folded sides are the same.

- ★ What shape is your paper?

- ★ How can you fold the circle/rectangle/square/triangle down the middle so that the two sides are exactly the same?

- ★ Are the sides exactly the same?

- ★ What other objects can you see that will have two sides that are exactly the same when you draw a line down the middle?

Give each learner a leaf. They fold their leaf in half lengthwise and carefully pull it apart down the middle.

- ★ Do you think the sides of your leaf are exactly the same?

- ★ How can we find out?

5. **Small group activities:** Describe the activities at each workstation.

Integration

Home Language: Use positional vocabulary when giving instructions, for example: 'Put the book on the middle shelf.'

Life Skills: Paint pictures involving the use of symmetry, for example, patterns on a butterfly's and ladybird's wings (see Term 1 Week 7).

3. **Collecting and sorting objects:** Learners decide for themselves how to sort all the objects (Unifix blocks, sticks and counters) in their tubs.

Guiding questions:

- ★ What groups can you make with your objects?
- ★ How are you sorting them?
- ★ Why did you put your _____ in this group?
- ★ How are these things alike?
- ★ Can you sort these in a different way?

Learners sort their objects according to a given attribute.

- ★ Can you sort your objects by colour/shape/size?
- ★ Which one belongs/does not belong in this group? Why?

4. **Sorting, representing and interpreting data:** Give each learner an A4 pictograph grid, and a tub of red, blue and green crayons. Learners sort their crayons according to colour.

Guiding questions:

- ★ Can you sort your crayons by colour?
- ★ What name can you give to this group of crayons?

Learners count how many crayons there are in each group. They put the number of matching colour Unifix blocks into the columns above the matching colour on their pictograph grids.

- ★ Are there more blue or green/red/crayons?
- ★ Which colour crayon do you have the most/least of?
- ★ How many more _____ crayons are there than _____ crayons?

Check that learners are able to:

- compare objects according to one or more attribute, for example, colour, size, type
- sort objects into groups according to different attributes
- describe the attributes of the sorted objects
- explain how they sorted the objects
- decide in which column objects belong
- know 'how many' based on the data represented

3. **Ukubuthelela nokuhlela kuhle izinto ngamananeko:** Abafundi bazicabangela ngokwabo bonyana bangazihlela njani zoke izinto (amabhlogo we-Unifix, iingojwana neembalisi) ezingeenkhafthininini zabo.

Imibuzo ehlahlako:

- ★ Ngiziphi iinqhema ongazenza ngezinto zakho?
- ★ Uzihlela bunjani ngamananeko?
- ★ Kubayini ufake i_____ yakho esiqhemeni sakho?
- ★ Izinto lezi zifana njani?
- ★ Ungakwazi ukukuhlela lokhu ngendlela ehlukileko?

Abafundi bahlela izinto zabo ngamananeko ngokwama-athribhuthi abawanikelweko.

- ★ Ungazihlela izinto zakho ngokombala/ibumbeko/ubukhulu?
- ★ Ngiyiphi ekufanele ibe/ingabi sesiqhemeni lesi? Kubayini?

- ★ Ngiwuphi umbala wamakhayoni onawo ngobunengi khulu/ngobuncani khulu?
- ★ Mangaki angaphezulu _____ amakhayoni akhona _____ amanengi kuna _____?

Tjheja bonyana abafundi bayakwazi uku:

- madanisa izinto ngokwe-athribhuthi linyenofana angaphezulu, isibonelo, umbala, ubukhulu, umhlobo

Day 1

What you need

- Rhyme: *Spaceship* (page 200)
- 10 spaceships each with 10 windows (from Week 9)
- Small smiley face stickers/cards – 1 per learner
- 2 hula hoops
- 8 mouse picture cards
- 2 small circle cut-outs: red and green

1. **Rhyme:** Say the rhyme, *Spaceship* from Week 9.
2. **Oral counting:** 1–20 and beyond, 10–1.
3. **Counting objects 1–10:** Learners sit in a circle. Together count the spaceships as you place them in a circle on the mat. Hand out a smiley face sticker/card to each learner. Learners take turns to stick their sticker onto the windows of the first/second/third, and so on spaceship. Count 1–10 as they do this.

Guiding questions:

- ★ How will we know when the first spaceship has 10 'people' in it?
 - ★ How will we know when we should start putting 'people' into the second spaceship?
 - ★ Do you think we will have enough stickers for the second spaceship?
 - ★ How many spaceships have/still need stickers?
- Count the people in the spaceships together.

4. **Grouping; introducing half:** Give eight learners each a picture of a mouse. Place two hoops on the mat.

Guiding questions:

- ★ How can we make sure that each hoop has the same number of mice?
- Learners put four mice in one hoop and four mice in the other hoop. Explain that when we put the same number of mice in each hoop, we say that half of the mice are in the one hoop and half of the mice are in the other hoop.

Explain that learners will continue to put 'people' into the spaceships on other days.

The mouse pictures can be attached to a crown to add a fun element.

Week 1

Rhyme: It's pattern time

It's pattern time,
It's pattern time,
So move your body while I move mine.
Move your hands.
Move your feet.
Stand up, sit down, do something neat.
The pattern you'll hear now is new. What will
your body do?
Clap your hands,
Stamp your feet, do something neat.
The pattern you'll hear now is new. What will
your body do?
Jump in the air,
Hop on one foot, do something neat.

Week 2

Song: Six little ducks

Six little ducks went swimming one day
over the hill and far away.
Daddy duck said, 'Quack, quack, quack, quack,'
and only five little ducks came waddling back.
(Repeat for five, four, three, two)
One little duck went swimming one day
over the hill and far away.
Daddy duck said, 'Quack, quack, quack, quack,'
and no little ducks came waddling back.
Daddy duck went out one day
over the hill and far away.
Daddy duck said, 'It's time to come back,'
and the six little ducks came waddling back.

Story: Number 6 story (with Number 6 frieze template)

Next came the six Ducks. They were a family. There was a father, a grandmother, a grandfather, an aunt and two ducklings. This meant that there were four adult ducks and two ducklings in the family of six.

The number symbol 6 and number word six went on the front of the house where everyone could see them. And six doorbells went on the front door.

The Ducks didn't put a pond in their lounge nor a bath in their bathroom, even though they loved to swim. They preferred to waddle down to the stream near their house. They did this because there were a lot of insects that lived near the stream, so they could look for food in the water and on the banks of the stream. The father duck made sure that the ducklings each ate six beetles for breakfast, six dragonflies for lunch and six mosquitoes for supper. The adults ate more than this because they had bigger tummies to fill.

The Ducks had a party to celebrate their new home. All the animals came. One Elephant from house number 1, two Zebras from house number 2, three Meerkats from house number 3, four Giraffes from house number 4 and five Monkeys from house number 5. They all brought their own food because they didn't all like eating insects.

(Repeat with six, five, four, three, two, one)

Then there were no green speckled frogs.
Glug-glug.

Story: Number 7 story (with Number 7 frieze template)

Next came seven Frogs. They were friends of the six Ducks, who had told them how much fun they were having in their new home. The Ducks invited the Frogs to be their neighbours. The Frogs needed space to jump without knocking their heads on the walls or ceilings, and they each wanted their own room. They jumped up and down and looked inside and decided that because they were smaller than all the other animals in houses 1 to 6, they would be comfortable and have enough space.

The number symbol 7 and number word seven went on the front of the house where everyone could see them. And the seven doorbells went on the door. The seven Frogs didn't always use the front door as they preferred to jump in and out of the windows. They enjoyed seeing who could jump the highest.

They wanted a big bath in each of their seven bedrooms so that they could swim whenever they wanted to. And they also built a pond in their lounge. It had seven lily pads so that each of them had a place to sit. When the other animals came to welcome them, they found all seven Frogs swimming together in the indoor pond in the lounge.

The seven lily pads each had a beautiful yellow flower growing next to it, which the other animals often came to look at.

Eight little mice creeping through the house,

Eight little mice come out to play.

But if one big cat catches one little mouse

Story: Number 8 story (with Number 8 frieze template)

The Mice nibbled eight holes through the wooden floors in their rooms and made underground tunnels so that they could go in and out of the house from their eight bedrooms.

They didn't need big bedrooms as they were so small. They were used to living in the fields as they were field mice, but were excited about the idea of living in a new home next door to the Frogs.

They built a big lounge as they loved to dance and have parties. They each played an instrument. One played the keyboard, one a guitar, one a violin, one a flute, one a trumpet, one a marimba and two played drums. So there were eight instruments in the house. The other animals loved listening to the eight Mice playing their eight instruments. Sometimes they would all join in by stamping their feet and hooves to the beat.

Game: I wrote a letter to my friend

One player walks around the outside of the circle with an envelope.

The class says:

'I wrote a letter to my friend, and on the way I dropped it.'

'One of you has picked it up and put it in your pocket.'

'It's not you, it's not you, it's not you ...'

When deciding whom to drop the envelope behind, the person taps that person on the head and says, *'It's you!'*

They then run, with the person who now has the envelope chasing them, once around the circle of learners and try to get to sit in that person's empty place before they are caught.

If the person is caught, he or she has to sit in the middle of the circle.

The new person holding the envelope starts walking around the circle, while the class says the words, *'I wrote a letter ...'*

And so the game goes on.
