INcwadi yokuSebenzela yomHlanganyeli • Participant's Workbook**

The Grade R Mathematics and Language Improvement Project is an initiative of the **Gauteng Department of Education** and its key partner, the **Gauteng Education Development Trust**.

The development and production of the training and classroom resources for the Grade R Mathematics and Language Improvement Project were made possible by generous project funding from the **United States Agency for International Development** and the **Zenex Foundation**.

The Grade R Mathematics and Language Improvement Project is managed by **JET Education Services** with UCT's **Schools Development Unit** and **Wordworks** as technical partners.

The **Schools Development Unit** (SDU) at the **University of Cape Town** (UCT) is the mathematics technical partner to the Grade R Mathematics and Language Improvement Project. The SDU is a unit within UCT's School of Education that focuses on teachers' professional development in Mathematics, Science, Literacy/Language and Life Skills from Grade R to Grade 12. The SDU offers teacher qualifications and approved UCT short courses, school-based work, materials development and research to support teaching and learning in all South African contexts.

Overview

Purpose

This is the first of twelve Grade R Mathematics Improvement Programme (Maths Programme) workshops, which form part of the Gauteng Department of Education (GDE) Grade R Mathematics and Language Improvement Project.

Participants will receive information on the components and guiding principles of teaching mathematics in Grade R. They will reflect on and discuss these within the context of their own planning and teaching. Participants will also review the Curriculum and Assessment Policy Statement (CAPS) Grade R Mathematics Content Areas. They will plan the daily programme Mathematics focus time for the first two weeks of Term 1. Throughout the workshop they will reflect on the guiding principles that inform teaching and learning.

*Grade R Mathematics Content Areas are taken from the *Curriculum and Assessment Policy Statement (CAPS): Grade R Mathematics (Final Draft)*, 2011, Department of Basic Education, South Africa

Mathematics is the formal subject name, but in this *Participant's Workbook* and during our discussions we will refer to it as 'maths'. (Read more about this on page 10 of the *Concept Guide*.)

Why a Maths Programme for Grade R?

Many South African primary school learners underperform in Language and Mathematics. A high percentage of learners fail to achieve even the minimum expected standards in these core subjects. There has been slow progress in the improvement of educational outcomes and in narrowing the achievement gap between learners from different backgrounds. The reasons for this are complex, go beyond the classroom and are affected by children's development and well-being from birth.

One of the critical issues around preschool access and attendance, as well as infrastructure and school management in South Africa, has been the fundamental questions about what and how children are learning. In order for all children to have a better chance of fulfilling their potential in Mathematics, the focus must broaden to include maths development in Grade R and, crucially, to provide Grade R teachers and practitioners with the knowledge and skills needed to support young children's maths learning.

The GDE identified Early Childhood Development as its Strategic Goal 1 and one of its key goals is to improve Home Language and Mathematics learning in Grade R. Through the Grade R Mathematics and Language Improvement Programme, the GDE is striving to improve performance in Grade R and prepare learners for Grade 1.

We believe that the Maths Programme will make an important contribution to the implementation of CAPS and that it will enhance the existing learning opportunities for all learners in Grade R so that they develop to their full potential.

What is the Grade R Maths Programme?

The Maths Programme focuses on teaching and learning one maths concept or topic at a time. The main focus of each week is on one CAPS Content Area. New knowledge is introduced through:

- ◆ whole class activities
- ◆ small group activities: teacher-guided activities and independent (side) activities
- ◆ free choice activities.

Kubayini iHlelo leemBalo zeGreyidi R?

Abafundi abanengi beenkolo zamabanga aphasi eSewula Afrika abasebenzi kuhle eemfundweni zeLimi neemBalo. Iphesentheji ephezulu yabafundi iyabhalelwa ukuthola ngitjho ubuncani bezinga elilindelweko kilezi iimfundo ezimumongo.

Kuneragelophambili elibuthaka ekuthuthukiseni imiphumela yezefundo nekunciphiseni isikhala sokuphumelela phakathi kwabafundi abaphuma ebujameni obuhlukileko.

Iinzathu zalokhu zihlangahlangene, zingale kwetlasi begodu zithintelwa kukhula nehlalakuhle yabantwana ukusuka ekubelethweni.

Okhunye kwezinto eziqakathekileko okuphathelene nokungena nokuya ekulisa, kunye nomthangalasisekelo nokuphathwa kwesikolo eSewula Afrika, mibuzo eqakathekileko emayelana nokobana abantwana bafunda ini begodu bafunda njani. Ukuze boke abantwana bathole ithuba elingcono lokuphumelelisa ikghono labo leemBalo, umnqopho kufanele unabiswe ukufaka hlangana ukuthuthukiswa kweembalo kwaGreyidi R begodu, okuqakatheeke khulu, kunikela abotitjhore bakwaGreyidi R nabasebenzi ilwazi namakghono adingekako wokusekela abantwana abancani ukufunda iimbalo.

I-GDE ibone ukuThuthukiswa kweFundo yabanTwana abasaThomako njengeQhinga lomNqopho 1 nokobana enye yeenhloso zayo eziqakathekileko kuthuthukisa iLimi leKhaya nokufundwa kweemBalo kwaGreyidi R. NgeHlelo lokuThuthukisa iimBalo neLimi kwaGreyidi R, i-GDE ilinga ngamandla ukusebenza ngcono kwaGreyidi R nokulungiselela abafundi ukuya kwaGreyidi 1.

Siyakholwa bonyana iHlelo leemBalo lizakwenza ubungcono obukhulu ekusetjenzisweni kwe-CAPS nokobana lizakuthuthukisa amathuba akhona wokufunda wabafundi boke bakwaGreyidi R bazokwazi ukukhula ngokupheleleko.

Liyini iHlelo leemBalo zeGreyidi R?

IHlelo leemBalo linqophe ukufundisa nakufunda umqondonofana isihloko seembalo esisodwa ngesikhathi sinye. Umnqopho omkhulu weveke ngayinye uqalana nesiGaba sokuMumethweko sinye se-CAPS. Ilwazi elitjha lithulwa nge:

- ◆ imisebenzi yetlasi yoke
- ◆ imisebenzi yesiqhema esincani: imisebenzi ehlahlwa ngutitjhore nemisebenzi ejijameleko (yangeqadi)
- ◆ imisebenzi yokuzikhethela ngokutjhaphulukileko.

The Maths Programme:

- ◆ supports, extends and reinforces the content of CAPS Grade R Mathematics. It does not replace CAPS and it assumes that teachers have some prior knowledge and understanding of CAPS Grade R Mathematics.
- ◆ promotes focus time so that learners can practise newly acquired skills and knowledge, and embeds practise opportunities in planned maths activities and experiences.
- ◆ gives teachers a detailed guide that supports teaching and learning.
- ◆ is guided by eight principles that contribute to successful teaching and learning.
- ◆ supports teachers in making the link between Grade R Mathematics concepts and later mathematical competence.
- ◆ emphasises the weekly observation of learners as a tool for gathering information about each child to inform planning and assessment.

IHlelo leemBalo:

- ◆ lisekela, linabise beligandelele okumumethweko kweemBalo zeGreyidi R ze-CAPS. Alijamiseleli i-CAPS begodu lithatha ukuthi abotitjhere banelwazi langaphambili nokuzwisisa i-CAPS yeemBalo zakwaGreyidi R.
- ◆ likhuphula isikhathi sokunqophana kobana abafundi bazijayeye amakghono amatjha abawatholileko nelwazi, begodu lifaka amathuba wokuzijayenza emisebenzini yeembalo eplaniweko kunye nelemukweni.
- ◆ linikela abotitjhere umhlahlandela opheleleko osekela ukufundisa nokufunda.
- ◆ lihlahlwa mithethokambiso ebunane esiza ekufundiseni nekufundeni okuyipumelelo.
- ◆ lisekela abotitjhere ekuhlanganiseni imiqondo yeemBalo zeGreyidi R nekghono leembalo eliza muva.
- ◆ ligandelela ukutjhejwa kwabafundi qobe yiveke njengethulusi lokubuthelela ilwazi elimayelana nomntwana ngamunye okuzakusiza ukuhlela nokuhlola.

Time allocation for Mathematics in Grade R (10 minutes)

CAPS suggests that the instructional time for Mathematics in Grade R should be 23 hours per week. However, CAPS does not provide a weighting or a breakdown of the time that should be spent on each Content Area for each term.

Maths in the Grade R daily programme (20 minutes)

The daily programme in Grade R is not a timetable like the ones used in higher grades.

In Grade R the day is organised around the developmental needs of the learners. The day begins with time to talk and sing and ends with rest and stories. During the day, teachers plan activities for Home Language, Life Skills and Mathematics knowledge and understanding. During play and interaction with the teacher and other learners there are many opportunities for the integration of new skills and time to practise what has been learnt.

The Maths Programme suggests a way of organising the daily programme with focus time for Home Language, Life Skills and Mathematics.

Daily Mathematics focus time

The Language training introduced you to a two-week teaching and learning cycle. The Maths Programme also follows a structured approach to organising the class for the Mathematics focus time. The Maths Programme's teaching and learning cycle is based on five small group activities that are rotated during one week. The lessons begin on a Monday and end on a Friday.

Isikhathi esabelwe iimBalo kwaGreyidi R (imizuzu 10)

I-CAPS iphakamisa bonyana isikhathi sokufundisa imBalo kwaGreyidi R kufanele sibe ma-iri ama-23 ngeveke. Nofana kunjalo, i-CAPS ayinikeli isilinganisonofana ukuhlukaniswa kwesikhathi esizakusetjenziswa esiGabeni sokuMumethweko ngasinye ithemu ngayinye.

IimBalo kwaGreyidi R ehlelwani langamalanga (imizuzu 20)

Ihlelo langamalanga lakwaGreyidi R alisiyo ithebula yesikhathi njengakumagreyidi aphakemeko.

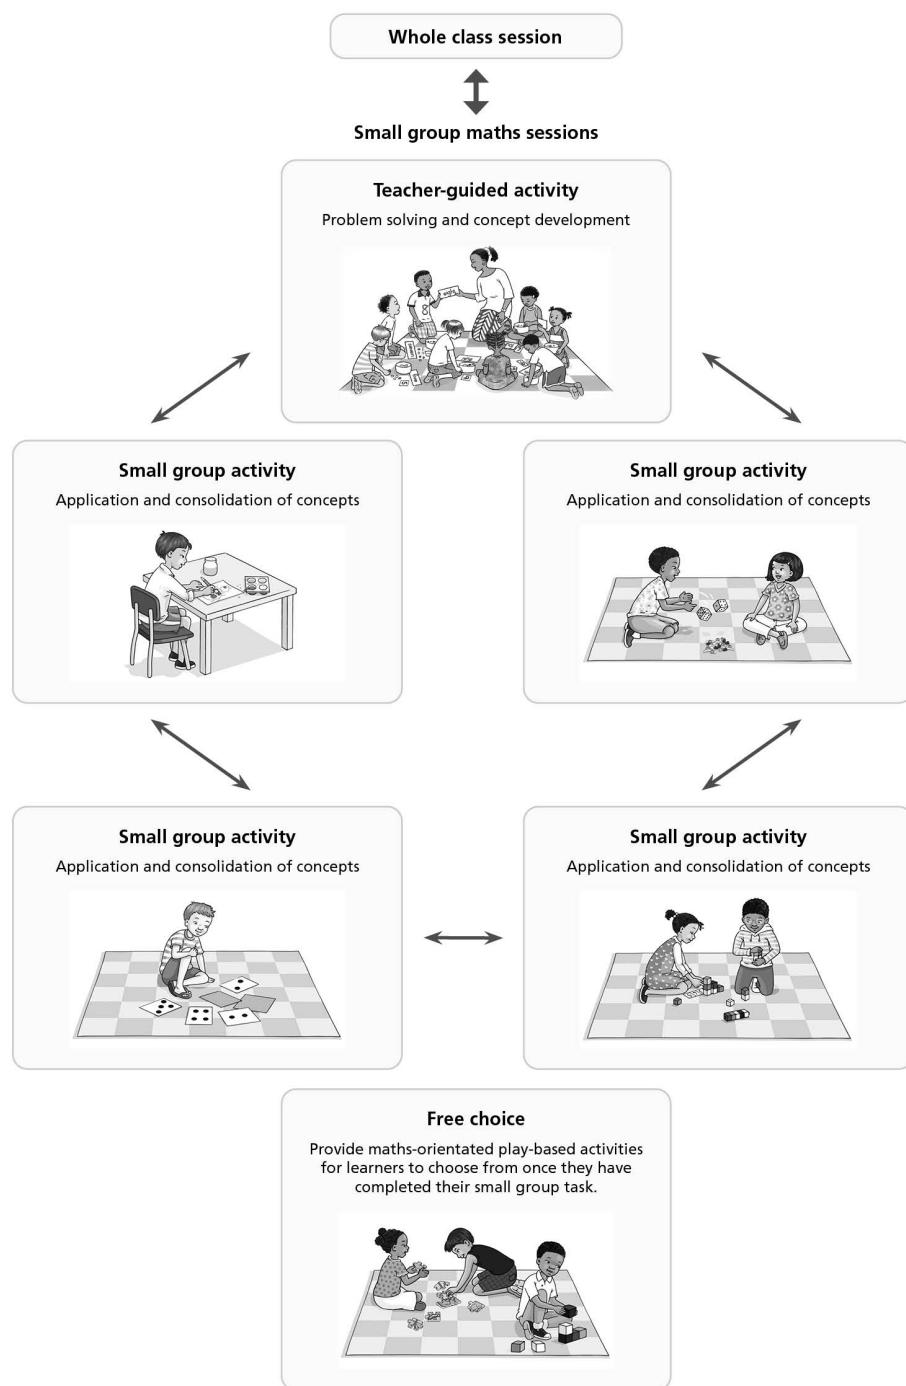

KwaGreyidi R ilanga lihlelwa magega needingo zokuthuthuka kwabafundi. Ilanga lithoma ngesikhathi sokucoca nokuvuma bese liphela ngokuphumula neendatjana. Phakathi kwelanga, abotitjhere bahlela imisebenzi yeLimi leKhaya, amaKghono wePilo, ilwazi nokuzwisisa iimBalo. Ngesikhathi sokudlala nokukhulumisana phakathi kukatitjhere nabanye abafundi kunamatuba amanengi wokuhlanganisa amakghono amatjha nesikhathi sokuzijayeza lokho okufundiweko.

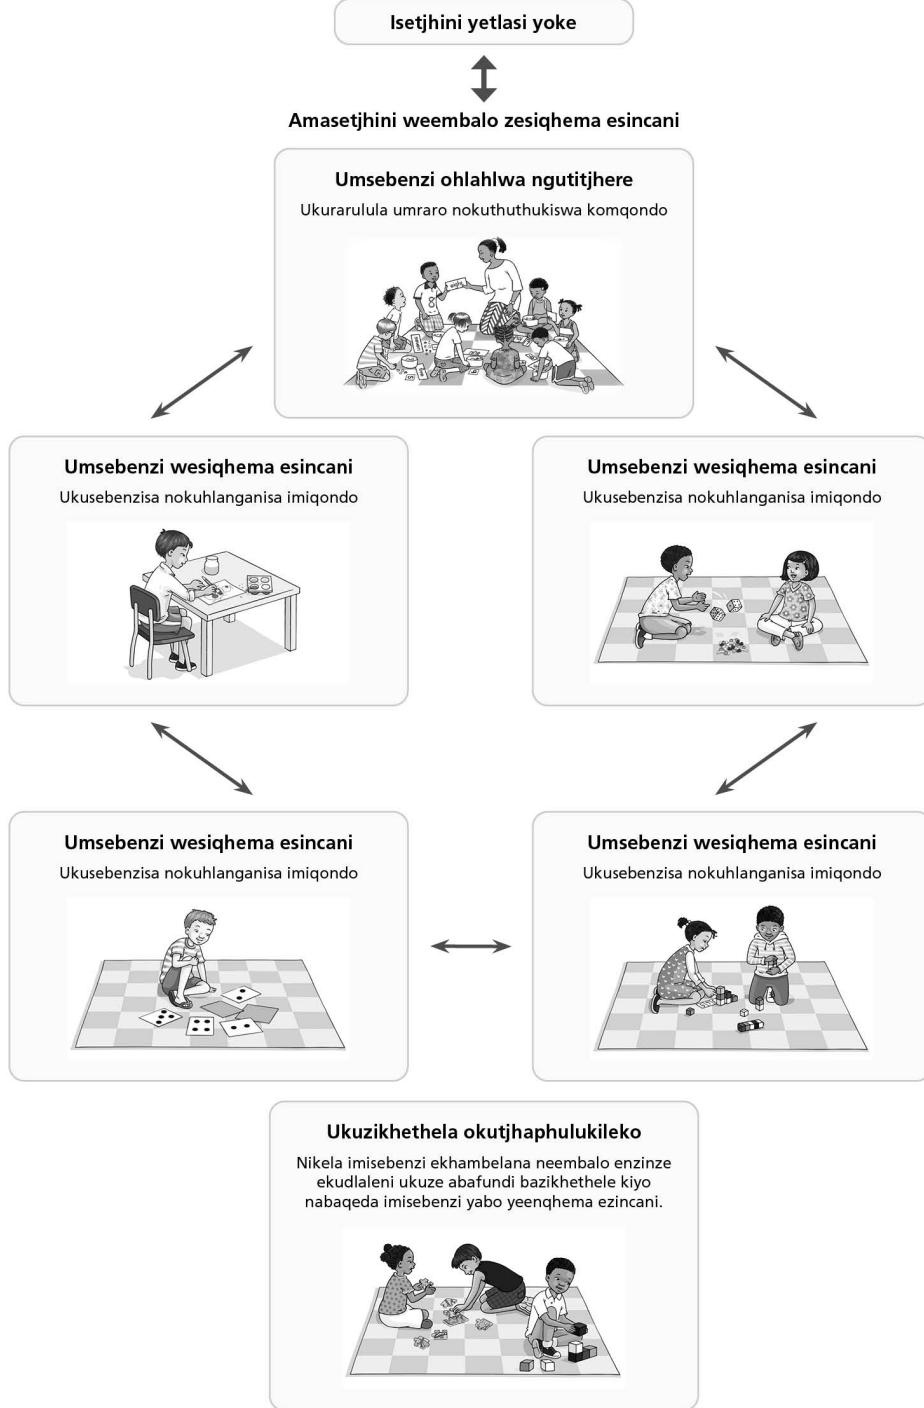

IHlelo leemBalo liphakamisa indlela yokuhlela ihlelo langamalanga elinesikhathi sokunqophama neLimi leKhaya, amaKghono wePilo neemBalo.

Isikhathi sangamalanga sokunqophana neemBalo

Ibandulo leLimi likwethule emzombeni wokufundisa nokufunda weemveke ezimbili. IHlelo leemBalo nalo lilandela indlela ehlelekileko yokuhlelela itlasi isikhathi sokunqophana neemBalo. Umzombe weHlelo leemBalo lokufundisa nokufunda lisekelwe misebenzi yeenqhema ezincani ezihanu ekudlheganwe ngayo evekeni eyodwa. Iimfundo zithoma ngoMvulo bese ziphela ngeLesihlanu.

Important concepts in Numbers, Operations and Relationships

(1½ hours)

Counting

Oral counting (rhythmic, rote or acoustic counting)

Oral counting involves a learner memorising the names and counting order of numbers, often in a rhyme or song.

In Grade R learners learn the correct order of number names and repeat the sequence daily. The purpose of counting out loud is to help learners understand that when we count aloud there is a set order for the numbers: beginning at one, then two, three, four, etc. Initially learners do not fully understand the meaning of the number names and might skip numbers in a counting sequence. Reciting a rhyme or series of numbers orally means repeating the number names from memory. Even when learners count in steps of two, five and ten they are using their knowledge of this number order. Memorising number names and repeating them in the correct counting order does not necessarily mean that learners can count. This is different from counting to find out 'how much'.

Arrange yourselves into small groups of five and find an open space in the training room for the next activity.

Activity 3

1. In your small groups, say the rhyme, *One, two, three, four, five*, with actions.

One, two, three, four, five

One, two, three, four, five
Once I caught a fish alive.
'Why did you let it go?'
Because it bit my finger so.
One, two, three, four, five
Then I caught a frog alive.
'What did you do with that?'
I said hello and put it back.

Ukubala

Ukubala ngomlomo (ukubala ngegido, ngehlokonofana ngomlomo)

Ukubala ngomlomo kufaka ukubamba komfundi amagama nerhemo lokubala iinomboro, kanengi ngomlolozelo nofana ingoma.

KwaGreyidi R abafundi bafunda irhemo elifaneleko lamagama weenomboro begodu babuyeleta ilandelano ngamalanga. Umnqopho wokubalela phezulu kusiza abafundi bezwisise bonyana lokha nasibalela phezulu kunerhemo elithileko leenomboro: elithoma kukunye, bese kubili, kuthathu, kune, njll. Ekuthomeni abafundi abezwisisi kuhle ihlathululo yamagama weenomboro begodu kungenzeka beqe iinomboro elandelwaneni lokubala. Ukutjhwela phezulu umlolozelo nofana umlandelande weenomboro ngomlomo kutjho ukubuyeleta amagama weenomboro ngokomkhumbulo. Nalokha abafundi babala ngamagadango wangakibili, ngakuhanu netjhumi basebenzisa ilwazi labo lerhemo leenomboro leli. Ukubamba ngehloko amagama weenomboro nokuzibuyeleta ngerhemo lokubala elifaneleko akutjho bonyana abafundi bayakwazi ukubala. Lokhu kuhlukile kunokubala ufuna ukuthola bonyana ‘kungakhi’.

Zihleleni ngeenqhema ezincani zangabahlanu bese nithola indawo evulekileko yomsebenzi olandelako ngekumbeni yokubandulela.

Umsebenzi 3

1. Eenqhemeni zenu ezincani yitjhoni umlolozelo, *Kunye, kubili, kuthathu, kune, kuhlanu*, kube nezenzo.

Kunye, kubili, kuthathu, kune, kuhlanu

Kunye, kubili, kuthathu, kune, kuhlanu

Ngakhe ngabamba ifesi ephilako.

‘Wayiliselani?’

Ngombana yangiluma umuno.

Kunye, kubili, kuthathu, kune, kuhlanu

Ngasengibamba isirhwarhwa esiphilako.

‘Wenzani ngaso?’

Ngasilotjhisa ngasibuyisela.

2. Do you think using a rhyme like this one is good practice for teaching counting in Grade R? Give reasons for your answer.

Refer to pages 76 and 196 of *Activity Guide: Term 1* for this rhyme.

Activity 4

In the same small groups, answer these questions:

1. What would learners learn by saying this rhyme?

2. What do learners learn when they repeat a sequence of numbers in the correct counting order?

2. Ucabanga bonyana ukusebenzisa umlolozelo onjengalo kusisenzo esihle sokufundisa ukubala kwaGreyidi R? Nikela Iinzathu zependulo yakho.

Qala emakhasini 77 ne-197 *womHlahlandela wemiSebenzi: Ithemu 1* ukufumana umlolozelo lo.

Umsebenzi 4

Ngeenqhema ezincani ezifanako, phendulani imibuzo le:

1. Abafundi bazakufunda ini ngokutjho umlolozelo lo?

2. Abafundi bafunda ini lokha nababuyeleta ilandelano leenomboro ngerhemo lokubala elifaneleko?

Counting objects (rational counting)

Counting objects involves one-to-one correspondence. This means that each object or event to be counted is matched with a number word. To count ‘how many’, learners need to realise that each object in a collection gets a number word (‘one, two, three, four ...’) and that you count each object only once.

Once learners know the order of the counting numbers, they begin to understand that each number in the counting sequence is one bigger than the number before and one smaller than the next number. They:

- ◆ can mentally compare numbers and see that two is one more than one and that three is one more than two.
- ◆ realise that numbers grow by one each time.
- ◆ realise that any number in the counting sequence is exactly one more than the previous number.

Video 3

Watch the video of learners counting a collection of objects. This is a teacher-guided activity. Notice how the teacher observes each learner and asks questions to prompt them to share their ideas.

Representing numbers

Activity 5

How many different ways can you find to represent the number 5?

Ukubala izinto (ukubala ngokuzwisia)

Ukubala izinto kufaka kunye kokunye okukhambelanako. Lokhu kutjho bonyana into ngayinyenofana isehlakalo ekufanele sibalwe sikhambelaniswa nenomborogama.

Ukubala 'kungaki', abafundi kufanele bayelele bonyana into ngayinye ebuthelwelweni ithola inomborogama ('kunye, kibili, kuthathu, kune ...') nokobana ubala into yinye kanye kwaphela.

Abafundi nasele bazi irhemo leenomboro zokubala, bathoma ukuzwisia bonyana inomboro ngayinye elandelwaneni lokubala yikulu ngakunye kunenomboro yangaphambili begodu yincani ngakunye kunenomboro elandelako. Ba:

- ◆ ngamadanisa iinomboro ngehloko bese babone bonyana kubili kunengi ngakunye kukunye nokobana kuthathu kunengi ngakunye kunokubili.
- ◆ ngezwisia bonyana iinomboro zikhula ngakunye ngaso soke isikhathi.
- ◆ ngezwisia bonyananofana ngiyiphi inomboro elandelwaneni lokubala yikulu ngakunye poro kunenomboro yangaphambili.

Ivideo 3

Bukela ividiyo yabafundi ababala ibuthelelo lezinto. Lo msebenzi ohlahlwangutitjhere. Yelela bonyana utitjhere ubatjheja njani abafundi ngamunye bese ubabuza imibuzo ebakhuthaza bonyana babelane ngemibono yabo.

Ukujamiselela iinomboro

Umsebenzi 5

Zingaki iindlela ezhilukileko ongazithola zokujamiselela inomboro 5?

Learners begin to represent numbers using their fingers, and then gradually start to use other methods, such as objects, drawings, pictures or symbols. Learners progress:

- ◆ from using actual objects to represent (stand in for) numbers, e.g. lemons, sweets, pencils, leaves
- ◆ to using pictures or drawings to represent the objects, e.g. a drawing of a lemon, person, car
- ◆ to using counters to represent the objects or pictures, e.g. plastic discs to show the number of lemons
- ◆ to using marks to represent the physical objects and pictures, e.g. circles, dots, tally marks, clapping sounds, drumbeats, stamping feet
- ◆ to using number symbols and number words, e.g. '2' or 'two'.

The Maths Programme uses an approach that introduces numbers 0–10 one at a time and follows the same teaching routine for each number.

- ◆ A story is told about the number. This raises learners' interest and provides a familiar, fun context that connects with learners' lives and interests.
- ◆ Each number has a particular animal character. The story featuring the animal is used to build a number frieze to represent the number.
- ◆ Dramatising the story provides opportunities for learners to respond kinaesthetically (learning through acting and moving their bodies).
- ◆ Objects are collected to represent the number in various ways. The objects are put in the maths area.
- ◆ Learners match objects to pictures, dot cards, number symbols and number words.
- ◆ The *Poster Book* provides real-life contexts to stimulate discussion and encourage problem solving.

The number 'one' is introduced in the second week of Term 1 to familiarise learners with this routine. The same routine is used as each new number is introduced, adding one more to the number the learners learnt previously.

Abafundi bathoma ukujamisela iinomboro ngokusebenzisa imino yabo bese kancani kancani bathoma ukusebenzisa ezinye iindlela, njengezinto, imidwebo, iinthombenofana amatshwayo. Abafundi bathuthuka:

- ◆ ukusuka ekusebenziseni izinto zamambala ukujamiselela iinomboro, isib. amalamune, amaswidi, iimpensela, amakari
- ◆ ukuya ekusebenziseni iinthombenofana imidwebo ukujamiselela izinto, isib. umdwebo welamune, womuntu, wekoloyi
- ◆ ukuya ekusebenziseni iimbalisi ukujamiselela izintonofana iinthombe, isib. amadiski weplastiki ukukhombisa isibalo samalamune
- ◆ ukuya ekusebenziseni iimeregi ukujamiselela izinto ezibonakalako neenthombe, isib. iindulungu,amaqatjhazi,amatshwayo wamathali,itjhada lokuwahlala, amabetho wesigubhe, ukubetha phasi ngeenyawo
- ◆ ukuya ekusebenziseni amatshwayo weenomboro neenomboromagama, isib. '2'nofana 'kibili'.

IHlelo leemBalo lisebenzisa indlela eyethula iinomboro 0–10 ngayinye ngesikhathi sinye bese ilandela ikambiso yokufundisa efanako inomboro ngayinye.

- ◆ Kucocwa indatjana ngenomboro. Lokhu kukhuphula ikareko labafundi bese kubanikela ubujamo obujayelekileko nobuthabisako obukhambelana namaphilonamakareko wabafundi.
- ◆ Inomboro ngayinye inomlingisi wesilwana esithileko. Indatjana enesilwana le isetjenziselwa ukwakha umhlobiso wenomboro ukujamiselela inomboro.
- ◆ Ukulingisa indatjana kunikela amathuba wokobana abafundi baphendule ngokusikinya umzimba (ukufunda ngokwenza nokusikinya imizimba yabo).
- ◆ Izinto ziyabuthelelwa ukujamiselela inomboro ngeendlela ezihlukileko. Izinto zibekwa endaweni yeembalo.
- ◆ Abafundi bakhambelanisa izinto neenthombe, amakarada wamaqatjhazi, amatshwayo weenomboro neenomboromagama.
- ◆ *INcwadi yamaPhosta* inikela ubujamo bepilo yamambala ukuhlahlambisa imikhulumiswano nokukhuthaza ukurarululwa kwemiraro.

Inomboro 'kunye' ithulwa evekeni yesibili yeThemu 1 ukujayeza abafundi ikambiso le. Ikambiso efanako le isetjenziswa lokha inomboro etja nayithulwako, kungezelelwa ngakunye enomborwени abafundi abayifunde ngaphambili.

Before completing the next activity, interact with the facilitator as she tells the story for number 1 and builds up the number frieze using the house template and animal frieze cards. After listening to the story, complete Activity 11.

Activity 6

What are the different ways that the number 1 was represented in the story?

Ngaphambi kobana kuqedwe umsebenzi olandelako, khulumisana nomkghonakalisi lokha nakasacoca indatjana yenomboro 1 bese nakha umhlobiso wenomboro ngokusebenzisa umfuziselo wendlu namakarada womhlobiso wesilwana. Ngemva kokulalela indatjana, qedelela Umsebenzi 11.

Umsebenzi 6

Ngiziphi iindlela ezihlukileko ekujanyiselelwe ngazo inomboro 1 endatjaneni?

In Grade R assessment is informal and continuous. We need to observe learners throughout the day, inside and outside the classroom.

The Maths Programme is designed around the rotation of small groups during a week and the teacher pays special attention to one group a day, watching and listening as the learners complete specific tasks. This time gives the teacher the opportunity to carefully observe each learner and gather information on their progress.

Look at the shaded block at the end of the teacher-guided activity in Week 2: ‘**Check that learners are able to**’. The eye icon reminds us that we need to observe the learners while they are busy, and we need to listen carefully while they are talking to us and to their peers.

The teacher makes a mental note of each learner and once the learners have left for the day, she writes down her observations in a dedicated observation book that has space for each learner’s notes.

Poster Book and Resource Kit **(10 minutes)**

The *Resource Kit* has enough apparatus for a small group of six to eight learners.

The apparatus that will be used in Term 1 Weeks 1 and 2 includes:

- ◆ counters: animal and fruit counters
- ◆ number cards: number symbol (1) and number word (one).

You will each receive a *Resource Kit* and a *Poster Book*.

Refer to pages 6–17 of *Activity Guide: Term 1* to read about classroom resources and setting up a maths learning environment.

KwaGreyidi R ukuhlolwa akukahleleki begodu kuragela phambili. Kufanele sitjheje abafundi ilanga loke, ngaphakathi nangaphandle kwetlasi.

IHlelo leemBalo litlanywe ngokudlhegana kweenqhema ezincani phakathi kweveke notitjhere utlhogomela isiqhema esisodwa ngokukhetekileko ngelanga, uyabukela abe alalele lokha abafundi nabenza imisebenzi ethileko. Isikhathi lesi sinikela utitjhere ithuba lokutjheja umfundu ngamunye ngokuyeleta okukhulu bese ubuthelela ilwazi mayelana neragelo phambili lakhe.

Qala ibhlogo elitshetlha ekugcineni komsebenzi ohlahlw ngutitjhere weVeke 2: '**Tjheja bonyana abafundi bayawkwazi uku**'. Itshwayo lelihlo lisikhumbuza bonyana kufanele sitjheje abafundi lokha nabamajadujadu, begodu kufanele silalele kuhle lokha nabakhulumu nathi nabangani babo.

Utitjhere wenza inothi lengcondo ngomfundu ngamunye bese lokha abafundi nasele bakhambile, utlola phasi lokho akutjhejileko encwadini yokutlola okutjhejiweko enesikhala samanothi womfundu ngamunye.
